Beavers To Play CCNY In New York Hoop Game

On Friday night, December 13th, the Tech basketball team will play the City College of New York in New York City's 18th annual M.I.T. basketball tournament to benefit the Metropolitan Association of New York City district. It will be a big game scheduled for the evening, since they also play the Raceway Institute of Technology in Hoboken, New Jersey the next day.

Only a few years ago the CCNY teams made an unforgettable run of both major college basketball tournaments, but a retiring season resulted in the expulsion of nearly the entire squad. The de-emphasis of basketball at City as a result, pandemonium has brought the Beavers onto their schedule. The scenario is marked by a complete shakedown in the athletic staff, including the dismissal of Director of Athletics Sam Winograd, whose staff is basketball captain as near Brooklyn College.

The game ought to be of great interest to those who follow the game, for City has a large engineering school, and it will mark the first meeting between the teams this year. It will also be a highlight for the Engineers, since City is one of the few very few schools on the Tech schedule.

Fire Extinguishers To Be Demonstrated On Field Wednesday

A demonstration of the proper use of fire extinguishers is being sponsored tomorrow by the M.I.T. Safety Committee, it was announced by Mr. E. Francis Bowditch, Director of the Committee. The demonstration will be held 10:00 a.m. on Brinley Field. It is expected to last approximately one hour. In the event of inclement weather, the demonstration will be postponed to the same time on Thursday.

Mr. Francis B. Brannigan, from the Atlantic Electric Committee, will serve as master of ceremonies. The demonstrations will be handled by Mr. Daniel Mackay, from the General Equipment Company, and Mr. T. P. Hendrie of Walter Kidde and Company.

Included in the exhibition will be demonstrations on the correct procedure for extinguishing different types of fires, including wood and trash fires, barn and oil fires, a running stream of burning gasoline, and a fire in a small room with a few people present. Following the show, there will be a question and answer period.

NOTICE

In accordance with the Institute's policy of keeping costs for student activities as small as possible, a large portion of rising costs, has been decided to serve area instead of butter in all student dining rooms. The move, which represents a large saving, has already been made successful at the Cambridge institutions in the country.

Any group of five people will be sold together at a table on Friday night will be sold tickets for $1.50 per ticket for the Saturday night event on a first come first served basis and the best table will be reserved. There will be no individual tickets sold. Individual sales or sales to groups of five or less will start one week later on Monday Octo- ber 19th, at 10:00 A.M.

Members of the Committee are: Mr. and Mrs. Winters, Mr. and Mrs. Winters, Mr. and Mrs. Winters, Mr. and Mrs. Winters, Mr. and Mrs. Winters, Mr. and Mrs. Winters.

New Dorrance Lab Expected Finished By Christmas

Indications are that the new Dorrance Laboratory will be finished by Christmas time if work continues at a rapid rate. Some of the offices in the new building are unfinished, and the Institute is gradually shifting people into their new quarters, and authentic laboratories and research rooms will still require considerable work before they are fully ready for occupancy.

One important feature of the new building as constructed that gas, water, and electricity are readily available in any room on any floor, if these services are desired. Some of the older Institute buildings required a line of hose to be run to the room in order to make heat. The new building is so constructed that gas, water, and electricity are readily available in any room on any floor, if these services are desired.
