Frost Squad 50 Strong

With Fidel Day less than a month away, the freshmen and sophomore football teams are gradually working into shape. Both teams hold their initial practice next week, with reasonably good results.

The Class of 1956 now has nearly fifty men out for their football team. At the moment the line play is quite ragged but there are a few outstanding players, among them Calvert at left tackle, Kramer at center, and Gordon at end. So is a good defensive tackle. The backfield Becker and Roberts are outstanding half-backs. According to Coach Dan Linsky, the team will run most of their plays from the straight T-formation, with either Sawyer or Evans running the team from the quarterback position. The team is now preparing for an intra-squad game scheduled against the Tufts Football next Wednesday, October 8.

Although the Sophomores do not have the numbers that the Freshmen do, they looked very good in their first practice session last Saturday. The backfield was running off its plays with something close to precision, despite their lack of practice. Kriner and Dave Scott have been working the quarterback duties in a T-formation offense. Wahl, Cole, Kemp, Thielman and Kinsinger all look good carrying the ball. In the line, the play is a bit more ragged, but the front men are coming along, from last year. Among the better linemen are Burton, Burton, Wilcox, Stenstrom, Peterson, and Ward.
