Blood Drive Starts Tuesday
Staff and Students Sought

Technology Christian Association’s fall blood drive in conjunction with the Red Cross will start on Tuesday, November 18, not on Monday, November 17, as was previously announced. In a letter to the Health, the Red Cross can grant only four days this week, or the blood may not be collected.

The committee of nineteen which is running the campaign has made every effort to ensure success. The Health Service and Air Science student group have published the drive poster, and distributed permission slips in all extramural organizations. Junior Prom and senior members have been asked to turn in all students who are eligible, and to bring their permission slips to the Health Service.

Those who have not turned in their permission slips may do so by bringing them to the Health Service.

MEDICAL CHECKUPS

All students not already set for medical checkups should make an appointment to be the first floor level of the Health Service.

The Medical Department has also announced that a record number of 3,437 students out of an enrollment of 7,074 have subscribed to the insurance plan.
