with the exception of Institute boxes. The alarm system had been set off and the doors closed. Burton called the fire department. Two ladder companies, three engine companies, and ambulance arrived.

According to Dean Fassett, "there was no smoke, no fire, no flames, no alarm."

to a very small number of students as is indicated by the dispatch which they receive from their box and deposit in it in the mailboxes without more than a place in at.

The situation has now come to the point where it is necessary to clear one's mailbox each day in order to leave room for mail when it comes.

What is responsible for this situation? Why does it exist? The cause can be traced to two sources. First, this is the cheapest and easiest way of mailing all the students what you are advertising or sponsoring. Second, the blame may be placed partly on those in responsible positions whose permission determines what may or may not be placed in our mailboxes.

I think those men should at least use some discretion as to what should and what should not be placed under our noses in this manner. I should also like to point out that one of the worst offenders in placing advertising in mail boxes is the Dormitory Commit-
tee, certain members of which are aware that the students place their mail in our mailboxes.

Adaptation of this situation would be very simple. The Institute has been well provided with bulletin boards for the specific purpose of advertisement of functions of the various activities. Let's limit this advertising to the bulletin boards. Security requires everything which goes into our mail boxes with the exception of Institute business to be properly addressed with names and box numbers; and thirdly, have more discretion used as to what should be placed in boxes and what should not.

**LUCKIES TASTE BETTER!**

They’re made better to taste cleaner, fresher, smoother!

Ask yourself this question: Why do I smoke?

You know yourself, you smoke for enjoyment. And you get enjoyment only from the taste of a cigarette. Luckies taste better-cleaner, fresher, smoother!

Why? Because Luckies are made better to taste. And what’s more, Luckies are made of fine tobacco, L.S./M.F.T.—Lucky Strike Means Fine Tobacco.

So, for the thing you want most in a cigare-
