In addition to his remarkable playmaking, Shute is back in luck with starting forwards for the Blue and Gold will be Charlie Marmont, a 20-year-old junior from Hartford. Trinity is expected to replace last year’s captain, Dave Smith, with Matt Walslaw, a 6 foot 5 inch junior. Walter, a transfer student from Notre Dame. The flaky Trinity varsity boasts a total of 1,680 points for last season. Trinity averaged 93.5 points per game last season, while their opponents rans up an average of 69.6 points per game. The team ran up its highest score against Union, stiltin a total of 56 points. Two years ago the Hilltoppers were the only team in the nation that had a chance to defeat the Blue and Gold varsity. Their main de- ject this year seems to be that they can no longer be considered a team to be reckoned with.

Saturday night the big weekend will draw to a close as one of the most promising Tech basketball teams in years shines with a strong Trinity College five at Hartford, Connecticut. Trinity loses only one starter from the team that defeated the Beavers last season. The 64-45 last season and finished with a 14-5 record. With a new coach and a vastly improved squad, the Engineering School is expected to replace last year’s captain, Dave Smith, with Matt Walslaw, a 6 foot 5 inch junior. Walter, a transfer student from Notre Dame. The flaky Trinity varsity boasts a total of 1,680 points for last season. **Conferences in the Clouds**

Among the undergraduates on any college campus, you’ll find the talk reaching up to the clouds. And once in a while—a in a class, around a study table, or even in a hall session—a really big idea is born.

Big ideas come, too, from the men and women in laboratories, business offices, shops. But often these professionals are exploring a path first glimpsed in college.

How do we know? Because of the many college people who have come into the Bell System, where big ideas and a lot of dreams have taken their place in progress. The human voice, carried along a wire, first across a town, then a state, a nation, and now the world. Music and pictures moving and happening delivery. There is the voice humbled all across the land by radio and television networks.

We’re always looking for the men and women who get big ideas—whether they’re about people, or machines, or ways of doing things. Your Placement Officer can give you details about oppor- tunities for employment in the Bell System.
