Professional Honor Groups Induct Additional Members

Tau Beta Pi, the national honorary engineering fraternity, and Kappa Phi Kappa, the national engineering science society, recently held their annual election meetings at the Institute. Each man was extended an invitation to join the group of his choice. Selections were made by the members of each organization, and the results of the voting were announced.

At the meeting of Tau Beta Pi, 19 members were elected to membership. These include juniors and seniors who have shown outstanding achievement in the field of engineering. Among those elected are Edward A. Kaszynski (Course II), Quantico, Virginia; Richard E. Lyke (Course X), Washington, D.C.; Martin A. Draghi (Course XV-A), and William Wilkins (Course III),ometown, Ohio.

In addition to these new members, two others were re-elected to Tau Beta Pi. These are Robert H. Gilbert, Jr. (Course I), Washington, D.C., and John H. Kaltman (Course X), Washington, D.C.

Kappa Phi Kappa also held its annual election meeting. Twenty-one new members were elected to membership, bringing the total number of members in the group to 75.

Class of ’55 Wins; Freshmen Second; Latoff High Scorer

Three records fell in the annual indoor track meet last Saturday, as the Sophomores captured the championship. The meet was attended by all the members of the Institute.

The first victory of the afternoon was won by the Sophomore relay team, who posted a 285 and a 282. The Sophomore team finished up the 1952-53 season in third place with a total of 1414 points.

The second victory of the afternoon was won by the Sophomore four-man team, who posted a 285 and a 282. The Sophomore team finished up the 1952-53 season in third place with a total of 1414 points.

The third victory of the afternoon was won by the Sophomore three-man team, who posted a 285 and a 282. The Sophomore team finished up the 1952-53 season in third place with a total of 1414 points.

Washington Univ. Victors in Debate

Last Tuesday, Thursday and Saturday, the Washington University Debating Team defeated the Virginia Military Institute in the annual debate tournament in Greensboro, North Carolina. With George Washington University emerging as the winner of the meet.

Representing the Institute were Vassar Brinkum, Robert Barnes, and William Wilkins. The team were coached by Dr. N. S. A. Plans for Summer Congress

The U.S. National Student Association will hold its annual congress at Ohio State University, August 31 to September 5. This year’s congress will be held in conjunction with the Ohio Student Congress, and is open to all students.

The theme of the Congress will be the theme of this year’s annual meeting, which is “The Future of Our Society.” The theme will be developed further through a series of panel discussions and workshops.

The meeting will be held at 12 noon. Admission to both lectures is free.

Dr. Perry Named To Chemical Adviser’s Board

Dr. James W. Perry of the Institute is one of five members of the Institute of Chemical Engineers who have been appointed to the first editorial advisory committee for the Journal of the Institute, with the Mandate of Chemicals in Chemistry Sermons, publications of the American Chemical Society.

The meeting will be held at 12 noon. Admission to both lectures is free.
