for you!

When you are asked to try a cigarette
you want to know, and you ought to know, what that cigarette has meant to people
who smoke it all the time.

For a full year now, a medical specialist has given a group of Chesterfield smokers thorough examinations every two months. He reports:

- no adverse effects to their nose, throat
- or sinuses from smoking Chesterfields.

More and more men and women all over
the country are finding out every day that
Chesterfield is best for them.

Enjoy your Smoking!
