spread. Under executive agreements with the foreign governments, exchange programs are being carried out for the academic year 1953-54 with the following twenty-five countries: Argentina, Australia, Austria, Belgium, Burma, Denmark, Egypt, Finland, France, Germany, Greece, India, Iran, Iraq, Japan, Luxembourg, Netherlands, New Zealand, Norway, Pakistan, Philippines, Thailand, Turkey, the Union of South Africa, and the United Kingdom. A program is in its sixth year for Vietnam and Japan.

The United States Educational Exchange Program is designed to promote better understanding of the United States in other countries, and to increase mutual understanding between the people of the United States and the people of other countries. This Program also provides opportunities for foreign nationals to study in American colleges and universities, and for an exchange of teachers, lecturers, and specialists between the United States and more than twenty foreign countries.

East Campus Professor (Continued from page 1)

Institute of Technology for three years, he has taught physics, chemistry, and astronomy to the students of the University. In addition to his duties as a professor, he has served as an administrator for Aeronautical Engineering at the Institute since 1946. He has also been engaged as the institute representative for the Air Force, and has been involved in a number of friendship programs that have been formed through other means, including meetings with groups of students selected according to the section of East Campus in which they live. These programs are similar in many ways, and are in the process of being implemented by the Office of International Affairs.
