A display of "Painting, sculpture and sculpture," will be displayed in the Photo Service Gallery, Basement of Building 11, through November 4.

CALENDAR OF EVENTS

The Calendar of Events appears in The Tech on Tuesday with announcements for the following week. Wednesday through Wednesday in the following week. Notices, typed and signed, must be in the office of the editor, Room 7-204, by Monday at 5:00 p.m. Material for the Calendar of November 4-11 is due October 29.

during the mail

To the Editor of The Tech:

Words fail to express my appreciation and satisfaction on witnessing the great amount of service that activity at Briggs Field, the sailing field, brings to the student body. It was truly "putting of student relations.

Except for Field Day itself, we probably reached a new peak in full work and athletic and recreational activities. No less than a total of 750 to 850 students voluntarily participated in the field activities.

I believe this is unique for any campus, especially in the fall of the year when students on other campuses appear to be participating rather than participating. It is my belief that students are deriving much more real satisfaction and true "spirit" from this form of activities than that which is generated from being one in a crowd of thousands witnessing thirty or so boys competing in a football game.

That which was most encouraging was the spontaneity and informality. Of course, the weather undoubtedly was a great contributing factor to such widespread participation.

Cross Country Team Wins

(Cross Country from page 2)

and living up to his promise, he was the first freshman to finish, placing third. In behind him were Peter Caryk in fifth place, Bill MeArthur in sixth place, Andy Carlson in seventh place, and Neil Schiako in eighth place.

but the fact remains that Tech student-athletes did perform voluntarily by the hundreds in a number of organized and semi-organized recreational activities ranging from flying model airplanes through the normal fall activities, and to dash it at—Chinese Judo games.

To me, the witnessing of this great amount of service to the student body was one of the most thrilling experiences that I have had the opportunity to witness at M.I.T. It renews my faith and interest in what we are listening to do for the general welfare and the good of the students; and I feel confident that the administration and faculty will continue to strive to provide adequate, convenient and comfortable facilities for such apparently worthwhile student activities.

as we like it

by Robert A. Stearns, '55

Pox-fax the Tulip is one of the few remaining sleigh-luggage to come to Boston in many a day. This French Alou (désirant for use in a number of those other young Frenchmen, Cudlile and d'Artagnan.

Frank was first given a picturesque marriage by enlisting in the army of Louis XVI, apparently one of history's first terrorist military establishments. Here in a merry jocundness, he savors the music of the Queen and Crown Princess and is rewarded by a short prison term. After removing, he becomes a soldier, wrapping a triangular serrant, macneys the heroine in a wild excitement, and finally is sentenced to be hanged. He finally defeats the enemy single-handedly what must go down as the oldest battle in movie history.

Germaine Doglez is more than ready with her speaking piece, heroine is unmaskaled, hero who carries on the crooked paths, and Miss Gina Lollobrigida is beautiful as the "fine-dece."
