Communications Techniques

Discussed At Special Meeting of JudComm Last Friday

by David C. Kleinman '56

At an open meeting held last Friday afternoon in the Faculty Lounge of the 36th floor of Walker Memorial, members of the Interfraternity Conference met to discuss the need for cooperation on the part of student groups interested in establishing a form of communication other than theshapes of the letters, and the reasons for which the meeting was called. It was generally agreed that the necessity for such a meeting is due to the increasing number of students interested in establishing a form of communication other than the long-standing system of writing letters. It was also agreed that the meeting should be held at least once a month, and that the first meeting should be held on the first Tuesday of each month.

Fraternities Leaders Reject Establishment Of New House

Eldon H. Reiley '55, News Director, represented WMIT. The main discussion was also discussed at length. It was felt that this will have a final hearing on the issue. Sheldon L. Dick '54, Editor, represented the I.F.C. There are also special art tours and travel study programs, and for those who wish to minimize expenses, work camp programs under the supervision of faculty members are available. "I have been interested in these tours myself, and have been able to participate in them," said Reiley. "I have also been able to participate in some of the tours, and have been able to see some of the countries."

The Techmen's victory was the result of a strong performance by the Techmen in the second half of the game. The Techmen scored two goals in the second half, and had a number of other scoring opportunities. The Techmen's defense was also strong, and limited the Harvard defense to only one goal in the second half. Beaver Touch Footballers Bow To Strong Tufts Stars, 12-6

In Exciting Overtime Struggle

A few yards pass from Dick Murphy to give the Techmen a 12-6 lead. Finding back to run a twenty, Murphy unlaunched a long, on after a break to Brooks, Brooks took the pass on the Tech thirty and out-to the secondary for twenty.

For the remainder of the half, the Techmen kept the ball in Tufts territory in some trouble. A hard-charging Tufts line led by David Nasitir '55 and Richard Hirschi, Lawson Excel to the 35, to late in the game.

The second half was a purely defensive battle as neither team could get the upper hand. The Techmen's victory was the result of a strong performance by the Techmen in the second half of the game. The Techmen scored two goals in the second half, and had a number of other scoring opportunities. The Techmen's defense was also strong, and limited the Harvard defense to only one goal in the second half.

Geiger Rejected Sec-Treasurer Of N.E.AthleticBoard

Professor Ivan J. Geiger, Director of Athletics, has been re-elected to the National Intercollegiate Athletic Board. The Board, which advises the Athletics Committee of the National Collegiate Athletic Association, has been critical of the way in which the association has handled certain issues. Geiger's re-election is seen as a victory for the association, which has been trying to gain more power over the NCAA. The Board's role is to advise the association on matters such as the distribution of revenues and the enforcement of rules. Freshman Test In Mathematics Planned Next Sat.

The Mathematics Society has announced that the Annual Freshman Mathematics Competition will be held on Saturday, December 19, from 2 to 5 p.m. in room 1-124. The competition will be open to all freshmen, and will be divided into two parts: a written test and a problem-solving session. The written test will cover the material covered in the first half of the course, and will consist of 30 multiple-choice questions and 5 free-response questions. The problem-solving session will consist of seven problems, each worth 10 points. The problems will cover a range of topics, including calculus, algebra, and geometry. The competition is open to all freshmen, and will be a great opportunity to test your knowledge and skills in mathematics.
