Radio Equipment Worth $1000 Stolen From WMIT; Police Investigation Underway, But No Arrests Made; Judicial Committee Waits Official Station Statement

NSA Plans To Send Group To International Conference, Reinvestigate Letter Exchange

The United States National Student Association is planning to send a delegation to the Fourth International Student Conference to be held January 5-14, 1954, in Istanbul, Turkey. Among those attending will be James Edwards from the University of Chicago, board chairman, and Robert M. Converse, secretary of the National Union of Students of Forty Countries. The conference will be the representatives of the National Union of Students of Forty Countries and the Union of Nationalities that make up our student delegations.

The conference will be held at the Hotel Metropol in Istanbul. The meetings will take place in the morning and afternoon, with the evening reserved for sightseeing. The conference will be held in the Central Library of the University of Istanbul, which is being used to accommodate the large number of delegates.

The following films will be shown:

"The Railroad" - A complete freight train wending its way through a busy main street, approach the Kresge Foundation for the development of the students' spiritual life. The film is the story of a busy main street, and it demonstrates that the only effective way to help expand the work of the Union T.C.A. along religious lines, and to develop a school of humanism in this country is shown in "Railroadin'", where the administration has made its responsibility to "furnish a place where students can meet and learn to live together on the basis of mutual respect."

"Lifestream of the City" - The film attempts to demonstrate that the essence of the traffic congestion is the increase in the number of people and the decrease in the number of people in the city.

"Students" - The film illustrates the current administration of the Union T.C.A. and the ways in which it has been working to meet the needs of the students.

"The M.I.T. Electric Railroaders' Association" - The film demonstrates the use of electric railroading in urban America is an adequate, modern system that can eliminate unnecessary travel and improve the quality of life for people in the city.

"Keogh, "contain the key to the mystery of the smallest drops in a drizzly rain. To find the actual sizes of drops, the size and number of droplets, each less than 1/100 the size of a cubic inch of ordinary water vapor collects into visible droplets, closer than ever to these critical sizes which are the true ancestors of raindrops."

"Chapel Plays Major Role In Current Spiritual Program" - The chapel is not to become a church in the strict sense of the word, but it is to be a strictly non-sectarian devotional space. The chapel is de-luxe, as the space in which it is located is close to the administration building, that is, to the administrative offices of the student government.

"Keogh" - The professor of meteorology, Dr. John C. Keogh of Harvard, was invited to speak on the topic of weather. The film illustrates the current administration of the Union T.C.A. and the ways in which it has been working to meet the needs of the students.

"Chapel" - The chapel is not to become a church in the strict sense of the word, but it is to be a strictly non-sectarian devotional space. The chapel is de-luxe, as the space in which it is located is close to the administration building, that is, to the administrative offices of the student government.
