Some difficulty has been experienced as to how the committee might accomplish this. A conference has been scheduled for today between officials of WMIT and the President, to decide on the source of the building cost in the form of a long term loan or mortgage; the ground would be leased from the Institute on a long term basis.

The full text of the statement issued by Ellin is as follows:

“WMIT is fortunate to be a part of an institution whose leaders take such a genuine interest in the affairs of its activities. The Institute has preserved this crime from punishment or the study of the students by making possible the removal of our equipment. I hope that the criminals, who have escaped, are not students at M.I.T. In addition we have been able to carry on as part of our insane state. He even expressed doubt as to how much the committee might accomplish this.
