All eligible students who intend to take the Selective Service Test for the first time must make an application for the test at one of the 22 authorized centers of the Massachusetts Institute of Technology Headquarters advised today. As much as possible, this information may be obtained in the Military Service Information Office, Room 16-1316, or at any Selective Service local board. Following instructions is the intent of the student should fill out his application immediately and mail it to the special envelopes provided. Applications must be postmarked no later than midnight, March 8, 1964. Early filling up is the student's advantage, according to Educational Testing Service, which prepares and administers the College Qualification Test.

Reports will be sent to the student's Selective Service Local Board of the Massachusetts Institute of Technology in accordance with the student's desire as a student.

Annual Campaign of TCA For Blood Begins Next Week

Solicitation for T.C.A.'s annual Spring Blood Drive will begin next week. The campaign, announced today that the Bloodmobile will be at Walker Field early next week to collect from the senior class and the student body. This service of the Massachusetts Institute of Technology Bloodmobile was given during the coming summer.

Instituted last year, the Student Bloodmobile plans to provide blood for those in need of blood, such as those with accidents or in hospitals. The service is open to all students over the age of 18 and those who are registered with the Red Cross for the blood program, said, 'M.I.T. is able to provide blood for those who need it. We are trying to make it available to everyone who needs it.'

In order to participate, students must register with the Red Cross and have their blood type typed. This information will be kept confidential and will only be used for blood donation purposes.

Summer Session 1954 Planned to Be Largest Type In MIT History

Preparations for the largest pro- gram ever offered in a summer session, and conferences in its history are now being made for the summer of 1954. Professor Ernest H. H. Huntington, director of the summer sessions, last night announced plans for 34 Special Plus Courses. This is the highest number of courses ever offered in previous sessions.

The organization is not based solely on the fact that the bloodmobile service was given during the coming summer. 'The organization is based on the fact that the Bloodmobile was able to provide blood for those who needed it. We are trying to make it available to everyone who needs it,' said the speaker.

Summer Session 1954 is expected to be the largest type of the MIT History program ever offered. The courses will be offered in a variety of subjects, ranging from history to science. The program is open to all students, regardless of their major.

'The Tech Boys' Night Out' Dance is expected to be held in the fall of 1954. The dance will be held on a portable floor in the Great Court, and will be open to all students, regardless of gender.

Summer Session 1954 will also feature a series of conferences on various topics, including history, science, and engineering. The conferences will be held on the MIT campus, and are open to all students.

An important component of the Summer Session program is the Maclean Summer Seminar, held in the summer of 1954. The seminar is expected to attract students from around the world to participate in a series of lectures and discussions on various topics.
