I didn't bring my squash stuff with me because I was afraid of losing heaven," school former pro star and current squash coach of Dartmouth College, Bob Heim, on a recent visit with his team to Tech. The quote quite fittingly the respect that coach, pro, and amateurs, hold for Tech's squash mentor, Jack Summers. Summers turned pro at the age of 15 and taught squash for several years at Union Boat Club. While he was there, he also won the National Pro- fessional Championships six times between the years 1923-25. After his success as a junior, Summers became much of the Beaver squash and tennis team, and in 1939 he became the university's coach. Upon starting his collegiate coaching career, he constructed a 9-month winning streak. Summers' rise to prominence, aside from his coaching duties, was his ability to ingratiate himself with squash players in New England. He is a graduate of Dartmouth, where he was a member of the NCAA Men's teams in squash and tennis. Since moving to New Hampshire, he has been an active member of the squash community, and his influence on the sport is still felt today. He is known for his ability to connect with and inspire his players, and his coaching philosophy is one of respect and fairness. Summers continues to participate in squash tournaments and remains an active member of the squash community. He is a true legend in the sport and his name is synonymous with excellence and dedication.

THE TECH OPEN MEETING
DEAN FREDERICK G. FASSETT Will Speak
on the topic
"The Responsibilities of a College Newspaper"

College Men!
Fly with the Finest in the Air Force
QUALIFIED APPLICANTS WIN WINGS AS AIR FORCE LIEUTENANTS, EARN OVER $5,000 A YEAR!

The most thorough and broadest training programs in the country. Service airmen are prepared to serve as pilots, navigators, bombardiers, and other technical and professional specialties.

1. How to qualify for Air Force training as an Aviation Cadet?
   - To qualify, you must be at least a high school graduate. However, you must be at least 20-years old.
   - You will be required to take a physical examination and have a satisfactory medical condition.
   - You will need to be a permanent resident of the United States.
   - You must have a satisfactory background check. No criminal record will be accepted.

2. What is a flight training?
   - Flight training is the period of instruction where you will learn to fly a military airplane.
   - It is the most important part of your training as an Air Force officer.

3. How to prepare for flight training?
   - It is important to be in good physical condition before you begin flight training.
   - You should eat a healthy diet, exercise regularly, and get plenty of rest.

4. After flying conventional planes, he moves on to jets...
   - You will begin your flight training in a conventional airplane.
   - You will then move on to jet training.
   - This is a challenging and rewarding experience.

5. What is the main difference between conventional and jet training?
   - Conventional training involves learning to fly airplanes with propellers.
   - Jet training involves learning to fly airplanes with jet engines.

6. Where can I find more information about the Air Force?
   - You can find more information about the Air Force on the website of the U.S. Air Force Academy, or by contacting your nearest Air Force Recruiting Station.

WHERE TO GET MORE DETAILS:
Contact your nearest Aviation Cadet Selection Team, Air Force ROTC Unit, or Air Force Recruiting Office.
