Grapplers Sixth
In New Englands;
Frob Place 7th

The Engineers varsity wrestling team returned from the New Eng
land championships at Amherst with a second and third in ind
vidual competition. Springfield easily capt
ured the team trophy, with Tech place
ning a poor sixth.

Captain Jack Kanaday led the Beavers, as he placed second in
the 137-pound class. John Hirschi '56, at
147, garnered the other Tech points with
a third.

Springfield's GymnastsIFT
most to the final round and swept
the meet with five firsts, two sec
onds and a third, in eight weight
classes. Rubelldone, the Springfield
125-pounder, won the outstanding
wrestler award.

-French Bank 7th-

The Beaver yearlings took seventh place behind champion Wael
sen in the freshman meet. Jim Simmons, 137-pounder, placed second, w h i t e
Mike Brenner, 157, and Tony Ver
tin, heavyweight, took thirds. Ver
tin also contributed two pins and John
Christianson one to add to the Beaver's score.

Colin and Morales, returning, the team should be bolstered by experienced
V's, such as Steve Cramer, Dave
Moros '54, Gene Yimson '55, while
fresh standouts Thomas and Cohen will add some much needed o
P.S.-he didn't get the job. His epite
would up 5194 in the pins, and they
ever got down to that. For one of
the first fights, as a matter of fact—all of
which had enough F from to
the data by telegraph and were
ated for哄Hs on the box.

Before you start jockeying for a job,
be sure to check your free copy of
the Telephone's Western's unique
unlike his money guide in t
the Western Telephone, 686 Stenton St., New
York City. And remember, whatever
the Project, you're smart to use Tele
grams or call, get the job on the Com
petition. Telegrams get in, get read, get the Reaction you want. Wonders happen in
all kinds of ways... whether
you're Dickering for a job, a Rural
Health Board, or Power from Pop. Just
and Western Union.

Graduating Engineers

Research, development and production activities at Northrop Aircraft, Inc.,
create a continuous demand for young men who are building careers
in the fields of engineering and science.

If you have had training that qualifies you for aeronautical engineering,
mechanical engineering, electrical engineering, boundary layer research,
aerodynamics, or thermodynamics... if you want to build a permanent,
successful career in one of America's foremost research, development and
production centers... if you want to locate in the Los Angeles Metro
politan area... please contact the Massachusetts Institute of Technology
Engineering Placement Office.

Interviews

Campus interviews will be conducted by Mr. Robert Ehinger, Engineering
Personnel Manager of Northrop Aircraft, Inc., on March 15 and 16 at
the Massachusetts Institute of Techology Engineering Placement Office.

Please make appointment in advance so your interview may be scheduled
for your convenience.

Northrop Aircraft, Inc.

Hawthorne, California

Squad

(Continued from page 1)

won their title in their field match by
breaking a first place tie with the Union East Crab.

To complete the picture, the Tech "C" team just failed to win their field
match by dropping two playoff encounters to the Tech Faculty-Graduates by 3-2
and 4-1 margins. Only Staehl, Whi
tshaw, and Morales could register 6
wins as Lenz and Bigelow dropped 1-3
decisions.

Rubelldone, Cohen Champs

The crowning achievement came
when Paul Rubelldone and Howard
Cohen hosted large fields to take the
state "A" and "D" individuals titles.
Cohen's effort was particularly im
pressive as he had been unscored in
the tournament and rated little chances
of winning.

The varsity capped the season
by sending Rubelldone, Goldin, Malik
, and Harriman, to the intercollegiate
championships at Dartmouth College.
Rubelldone, third seeded in the tourna
cment, was upset by George Osmund of West
Point in the quarter-finals 15-12, 11-14,
17-14, 15-8. Goldin went down to a
great defeat at the hands of Yale Fred
Gardner 15-18, 15-12, 12-15, 14-16, 18-16, while Malak was beaten by
second seeded Bud Addis of Dart
mouth and Harriman by Warren Barn
seman of Yale.

Goldin advanced to the semi-finals of
the consolation singles before being
eliminated by Charles Smith of Navy,
and the doubles team of Goldin and
Harriman reached the semi-finals be
fore losing 18-4, 15-12, 15-16, 18-16.

The outlook for next year is not
bright with only two regulars, Stahl
and Morales, returning. The team
should be bolstered by experienced
V's, such as Steve Cramer, Dave
Moros '54, Gene Yimson '55, while
fresh standouts Thomas and Cohen
will add some much needed o

An Opportunity for ENGINEERS
in the Expanding Instruments
and Automatic Controls Field

Mechanical engineers, here's an opportunity to become a
part of a vital industry with a real future. Republic
Wireless from Waltham, Massachusetts, manufac
turing industrial automatic controls, will have a representa
nte on campus soon to interview for engineers for posi
tions in research, design, production and sales engineering.

All college degrees will be considered. All abilities are
explored. Wages, starting at $225 a month, vary,
depending on experience. All qualified engineers will
be considered. Wages are dependent on experience. Full
drawl.

AUTOMATIC CONTROL IS A FIELD WITH A FUTURE

INTERVIEWS

March 16

Nec Plus

Mr. Colon D. Tucker
Student Placement Officer

We hear that you had a great day, and that the weather was
beautiful. Now, let's get down to business and talk about the
things that are important to you.

You are interested in the position at Republic Wireless, and
you would like to know more about the company and the job.

Republic Wireless is a well-established company, with
considerable experience in the field of automatic controls.
The company has a strong reputation for quality work,
and they are always looking for talented individuals to
join their team.

The position you are interested in is a production engineer,
and it involves designing and developing new automatic
controls. This requires a strong background in mechanical
engineering, as well as knowledge of electrical and
computer systems.

The company offers a competitive salary, as well as
benefits such as health insurance, retirement plans,
and paid time off. They also provide opportunities for
professional growth and development.

If you are interested in this position, please apply for the
opening by submitting your resume and cover letter to
Colon D. Tucker, Student Placement Officer, at
Republic Wireless. We look forward to hearing from you.

Please mention your interest in the position when you apply,
so that we can consider your application further.

Thank you for your interest in Republic Wireless.
We wish you the best of luck in your job search.

Arthur Fieldman
Manager, Student Placement
Republic Wireless

The Tech

Page Three

THE TECH

The Tech hockey stars, Harold Wells '55 and Capt. Chris Schwartz '56 have been
given All-New England honorable mention in the sportswriters' annual poll.
Wells played consistently well all season and in addition to his scor
ning, he filled in ably as a defenseman. Schwartz, injured early in the season,
played in only a few games but scored seven points during his limited action.
The team, coached by Ben Martin, finished the season with a record of
8-8-1. The two-cent record is not in
congruence with the quality of the team's play.
"Gas" Schwartz, Joe Bossa '54, and
Nick D'anna '56, all showed the ability
in the reason and this lack of depth hurt the team considerably.
The team played sporadic in the
during the games, but in the second
match against Amherst, a concerted
effort gave the Engineers a well-
earned and upset victory.

Prospects for next season are espe
pecially bright with many seasoned
veterans returning and several skaters
from the Freshman squad coming up to
the varsity. The likes of John L. Sullivan '56, Fred Culick '56, and Gus
Schwartz '56, and Harold Wells '55,
Nick D'anna '56, and Jim Barkich '56
could be especially effective. Also
reach to be expected from the Freshman line of Bob Goodson '57, Fred
Vigus '57, and Phillip Dargache w87.
