**Summer Program (Continued from page 1)**
under the direction of Professor J. Francis Marshalek, Director of the Aerodynamics Laboratory.

**Infernal Affairs**

Morning sessions of this two week program, to be given by Professor Marshalek, will be devoted to studies of systems and components. There will also be a few formal afternoon sessions devoted to programming techniques, using the numerically controlled milling machine developed in this laboratory under U.S. Air Force Sponsorship. Tuition for this program will be $175.

Further information and application blanks for either program may be obtained from the Summer Bulletin Office, Room 7-153.

**WHIT**

(Continued from page 2)

accessories, which will bring Whit up to its past technical standards. Whit expects to have its Burton House transmitter, which serves Baker House and both wings of Burton House, in operation as soon as it receives a few key parts. Director's Committee estimated $400 toward the $600 cost of the transmitter. The station agreed to pay $99 for its five years for use in dormitory council, at the end of which time Whit will officially take title to the transmitter.

**It's All a Matter of Taste**

When you come right down to it, you smoke for one simple reason—enjoyment. And smoking enjoyment is all a matter of taste. Yes, taste, is what makes the difference between a L.S./M.F. To-Lucky Strike and other brands.

**Be Happy-Go-Lucky**

A carton of better-tasting Luckies today.

**You Can't Afford to Smoke Anything Else!**

Because you can't afford to smoke anything else.
