- The Dean's Office alleged "veto" rights and privileges to those who inquired on the shoulders of every dormitory resident, particularly those in dormitory student government; for one of the duties of any government is to protect the rights and privileges of those who inquired on themselves. From those persons who would jeopardize the student government. Room 10-250, 5:00, 7:30, and 9:30 p.m.
- The House Committee has as much authority over the Dormitory Judicial Committee as to assume and the enforcement problem in their respective houses can be handled as they see fit, so long as the residents are assured some protection of their privileges, assuming, of course, that they have not violated those privileges. House Committee members and Hall Chairmen will not "pat the dorms" UNLESS they desire to do so. Also in the Dormitory Judicial Committee, "pet the dorms," but certain members will stop up later on random nights and be alert for persons looking the dorms in the early morning hours. There are no rules dividing the authority of the working hours of the individual residents, the House Committee, and the Judicial Committee; all have concurrent jurisdiction.

**Tuesday, April 22**

- (The Dent's Office alleged "veto" rights of a certain House changed requested by the Dormitory Council) was merely a statement by the Dean that he would have a particular Faculty Committee consider the request of the Council if the Council so desired, which is the deal. The request could be made to draw the house back from 5:00 p.m. to 2:00 p.m. on Fridays preceding long weekends.
- Last week on the Vanury's sports page, an athlete bleeding heart story and preface tears about the injustice difference of the M.I.T. boys to experienced and inattentive athletes. "You just don't care," he sobbed, "you just don't care at all." Nobody cares about the long, red, blurry T on wickets and misdemeanor athletes; nobody appreciates the clerks accounts or the seven-odd-ch pale-men-men—men with石膏. Where, in Harvard's name, is the old Ra-Ra-Ra spirit? Please dry your eyes, a beautiful physical specimen, for your tears are no avail. You are absolutely right, but if we don't care! "We are not even ashamed to proclaim "We don't care at all." Nobody cares. We do care very much. Only mature and adolescent hogwash and science rather than the doubtful and trepidatious glory of win-}
