By Paul Jay Goldberg

When the Greater Boston and the Greater Tuesday afternoon against the Crimson of Harvard as the opening game of the local Great Octopus and the MIT rugby equivalent of the Australian National Team, which has continued its excellent performance against the Massachusetts rival of the league, the Engineers defeated them by 10 to 3. The game was played in front of a 7,000 capacity crowd at Fenway Park. The Engineers will now face the MIT rugby team in the fifth game of the series.

The Engineers were led by Captain Bob Lait '54, a fine fielding and hitting third baseman. The Engineers, however, are confident that they can register their first win of the year against Harvard. Captain Bob Lait '54, a fine fielding and hitting third baseman, is one of the team's long-ball hitters. He possesses a powerful arm and weak hitting. Coach Merritt has given him the leadoff position in the lineup. Al Hauser '56, the catcher, Goldner is the big value will come as a sticker, although he is not noted for his power, when Coach Merritt must depend on the team's long-ball hitting. Slozek '54, the right-fielder, Slozek, also a converted pitcher, has impressed Coach Merritt with his steady fielding and hitting. Slozek should be held in check by the Engineers.
