Make your own “proving ground” test

... and we know this is what you'll find

Chevrolet is out ahead in powerful performance

Chevrolet is out ahead in economy

You can easily tell the difference between engines when you drive—and the difference is all in Chevrolet's favor! That's because Chevrolet's great engines deliver full horsepower where it counts—on the road. What Chevrolet promises, Chevrolet delivers!

There's new power, new performance and new economy in both 1954 Chevrolet engines—the "Blue-Flame 115" in Powerglide models and the "Blue-Flame 116" in gearshift models. And they bring you the highest compression ratio of any leading low-priced car. That's why they can deliver a big gain in power, acceleration and all-around performance, along with important gasoline savings!

Your test car's ready now... We'll be glad to have you compare the smooth, quiet performance of this new Chevrolet with any other car in its field. Come in and put it through any kind of "proving ground" test you care to; judge its performance for yourself. Your test car's ready now and we hope you are, too.

How a star reporter got started...

MARJORIE HIGGINs says: "I was born in Hong Kong, escaped only because of Chinese War. When my family returned to America, I studied journalism at Columbia and Columbia. I worked as a correspondent in Europe, German correspondent in Europe, Paris — then Nova — and I'm still covering the world."

START SMOKING CAMELS YOURSELF!

Smoke only Camel for 10 days and see yourself why Camel's word, pleasurable and rich, friendly flavor suits more people more than any other cigarette.

The new 1954 Chevrolet tail drum brakes provide maximum safety in high speeds.
