DISCRIMINATION AGAINST DISCRIMINATION

In the past few months, the members of the Institute Committee have very seriously considered sponsoring an intercollegiate conference on discrimination. At the same time, the Institute was about to hold the Intercollegiate Intramural Conference, an annual event that has become an important part of the Institute's life. The Institute was also about to hold the Intercollegiate Conference on Discrimination, a one-day event that has been held every year for the past three years.

The Intercollegiate Intramural Conference is held to promote intercollegiate competition and to provide a platform for students to express their ideas on a wide range of topics. The Intercollegiate Conference on Discrimination, on the other hand, is held to promote awareness of the issue of discrimination and to provide a platform for students to express their ideas on the issue of discrimination.

Recently, however, there has been a decrease in the number of intercollegiate conferences that are held on the Institute campus. This decrease has been due to a number of factors, including the increase in the number of students who are enrolled in the Institute, the increase in the number of students who are participating in intercollegiate conferences, and the increase in the number of students who are enrolled in the Institute.
