Next spring the Institute will take the
 Kes of a nationwide conference on
 intercollegiate conference to discuss
 discrimination in American universi-
 ties. The conference is planned to co-
 incide with the dedication of the new
 academic hall.

 According to the Undergraduate As-
 sociation which is sponsoring the con-
 ference the problems created by the
 existence of racial and religious prejudice
 is in connection with selection pro-
 cesses in admissions and fraternities
 are of an important nature and in order to try and resolve
 such problems a meeting will be held.
 More explicitly the purposes of the
 conference are to bring into contact
 college students and administrators
 from all sections of the country to pro-
 mote and facilitate understanding of
 the conflicting viewpoints and to give the
 knowledge of the actions of others
 college students, and their problems, the
 degree of success of their efforts and
 possibly to develop a common solu-
 tion of the problem.

 According to present plans the Deans
 of Students, the student body pres-
 ident and the editor of the Tech of each
 of 120 colleges will be invited to
 attend this conference. It is expected
 that all participants will have the
 opportunity to discuss and resolve the
 geographical sections of the nation
 and to learn more about the differ-
 ent opinions of other students, their
 policies and attitudes of colleges in
 all geographical sections. In each panel
 each delegate will be able to acquire a deep insight into
 the problems as seen by the partici-
 pants from other sections.

 The small twenty-man panels, which
 will remain intact throughout the con-
 ference will be organized to the same
 real specification of any one group from the
 student body of a particular institution
 will be distributed in the ratio of 3/5 students
 to each panel. Panel members will be
 selected in advance in the conferences from the
 student delegations of twenty nationally dis-
 tricted schools.

 Although the conference is aimed at developing understanding to the
 extent that any specific conclusions, it is
 possible that a deep insight into the pa-
 tron will result in some areas in prompt
 formal conclusions or resolutions.

 A.A. Will Solicit Contributions From
 Crew Champions

 As most everyone at the Institute
 now knows, the lightsweeper crew en-
 tered the Eastern sprinters champio-
 nship last Saturday at Princeton, and, as
 a consequence, was invited to com-
 pete in the Royal Henley Regatta, to be
 held in England this summer.

 Most people do not know is that the
 "trophy tour in England will cost
 approximately fifteen thousand dol-
 lar.

 In an attempt to defray the cost of
 this trip somewhat, the Athletic As-
 sociation, with the assistance of other
 interested organizations such as Ben-
 net Key, the Blue Club, and the Quad-
 rangle Club, will solicit students, fac-
 ulty, and other members of the Insti-
 tution family on Monday, May 24, which
 has been set aside as "Tag Day," at the
 same time, the graduates of the school
 will be contacted by various methods.

 In conclusion, the purpose of the
 possessions will be presented with a badge or pin
 to show that they have donated.

 Present plans call for the light-
 sweeper crew to fly to London from
 New York on June 23. The races are
 scheduled for June 30, July 1, 5, and
 November. However, this trip cannot be
 attempted without some funds. Tag Day
 is designed to raise some of the money
 that will be needed on this trip, and also give the
 Institution family an opportunity to support
 the crew.

 Officers Elected For Next Year By Tau Beta Pi

 The Tech will hold its annual
 honors society reception, Friday night.

 Tau Beta Pi, the national honorary
 engineering fraternity, elected its off-
 icers for the coming year at the regular
 meeting last Tuesday night.

 The new president is Jack H. Bron-}
 sel, president, elected over the hav-
 ste and a-cash award of ten dollars.
 A motion was passed that a five-
 dollar deposit be poured by those un-
 dertaking Campus living, because
 some of the groups using the lounges
 recently have failed to leave them
 clean. The deposit would be used to
 offset the cost of cleaning the lounges
 if it was found necessary.

 A discussion of the possibility of
 improving hearing facilities in Boston
 House single rooms by next year was
 discussed at the Brown House Cen-
 ter. Also talked over was the possibil-
 ity of furnishing this housing by the
 Alpha Phi Omega, to be held on
 Thursday, May 29.

 Final Meetings Of House Commis
 Held Wednesday

 East Campus House Committee last
 Wednesday, attended the house com-
 mittee's final meeting. The first prize
 in the case of "Poly" Dickson '54, its new president.

 The new vice-president is John P. Beagle '55.
 Head of a Catholic "Greek" across
 Secretary of the Board is Richard
 Ballot '55. Corresponding Secretary
 is Donald O. Lam '54. Treasurer is 
 Henry Reidel '54. Cataloguer is Jack
 Ballot '55. Secretary to the House
 Standards Congress-Credit Committee in
 Edward Mead Johnson '55.

 As is news to most people do not know is that the some of the groups using the lounges
 in the dormitories have failed to leave them
 clean. The deposit would be used to
 offset the cost of cleaning the lounges
 if it was found necessary.

 Freedom, Loyalty, Topics Of Lectures
 By Columbia Professor

 Professor Henry Steele Commager,
 Columbus University's History De-
 partment, spoke before an estimated
 500 people Wednesday afternoon in
 the Quad. The lecture was sponsored
 by the Lectures Bureau, and is part
 of the nature of freedom and the
 character of American democracy.

 Professor Commager is the author
 of "American's, the Story of a Free
 People," and is an author of the well-known last "Growth of Liberty," "Free Institutions.
 Professor Commager has gained wide repute as a
 competent historian and analyst of
 modern civilization.

 He began his lecture with an ad-
 dressment to the American public
 not to engage in unduly protected
 thinking, stating that they should be concerned with
 freedom not only in our particular city, state or country,
 but also should be willing to take ac-
 tion in protecting the liberties of
 other parts of the world.

 "Citizens have a right to think of
 as one of the characteristics of Amer-
 icans, Prof. Commager compared the
 conditions and causes for practical
 matters of Americans with the appec-
 tions of the British, and charged
 some other countries have demon-
 strated in connection with the voluntary
 trip to England is set for June 21. The races are
 scheduled for June 23. The races are
 scheduled for June 30, July 1, 5, and
 November. However, this trip cannot be
 attempted without some funds. Tag Day
