Undergraduate Assn. Prexy Describes Opportunities In Student Govt. For Freshmen

by Eldon Kelley, '56
President of the Undergraduate Association

All undergraduate activities at the Institute are organized into student-run organizations designed to give the individual student an opportunity to develop his leadership and social capacities, and to gain a varying degree of practical experience and know-how. To this end, the freshman class, through its three derivatives, is provided with three subdivisions of interests: (a) those that are primarily academic, (b) those that are primarily social, and (c) those that are primarily athletic. Despite this carefully planned and balanced organization, freshmen are often heard to express the opinion that there are no opportunities for them to become involved in activities. It must be emphasized that the three subdivisions serve as a basis for the individuals to develop their own special interests.

The several organizations, besides providing a means for the students to develop their own interests, also allow opportunities for the students to gain a greater understanding of the nature of the college. The Freshman Council, for example, provides an opportunity for the students to experience the spirit and tradition of the college, and to become familiar with the organization and operations of the Institute. The Freshman Council also provides an opportunity for the students to develop their leadership and organizational skills, and to gain a greater understanding of the nature of the college.

Pres. Killian Welcomes Class of '58

I am sure I speak for the whole M.I.T. family in saying that I am particularly happy and very proud indeed to welcome to the Class of 1958 to the Institute.

You begin your academic careers with the distinction of being the largest entering class in the Institute's history and with unparalleled opportunities for achievement in almost every field of your choice.

I am sure each of you shares with me the conviction that we, as individuals, and you as a group, can make a real impression on the world. It is my hope that you will be able to keep this conviction in mind as you begin your work at the Institute.

The Tech Offers An Introduction To Boston: College Sponsored Activities Found Best

In a few weeks new forms on the M.I.T. campus will begin wondering about the nature of the city they are about to play host to in educational institutions. The reason for this interest will most likely evolve from the fact that the Institute has been involved in a large number of activities that offer opportunities to learn about the city of Boston.

The Tech, the official newspaper of the Undergraduate Association, has been involved in a number of activities that offer opportunities to learn about the city of Boston. The Tech has been involved in a number of activities that offer opportunities to learn about the city of Boston.
