British Scientist

To Lecture Here

During Fall Term

Sir Alexander Todd, distinguished British scientist and professor of organic chemistry at the University of Cambridge, England, has accepted an appointment as Arthur D. Little Visiting Professor of Chemistry at the Institute for the current fall semester. Starting October 4, he will present a series of twenty lectures dealing with the chemistry of one group of vitamins, their function in enzyme systems, and the general field of nucleotide chemistry. Members of the Chemistry Department and all chemists in the Boston area are invited to attend.

An outstanding educator and research scholar, Sir Alexander is chairman of the British Government's Advisory Council on Industrial Policy, and in 1949 was awarded the Davy Medal of the Royal Society of London for the year's most important European or Anglo-American discovery in chemistry.

He is the author of numerous scientific papers published in chemical and biological journals and a Fellow of the Royal Society and of the Royal Institute of Chemistry.

PERSONALITY

COMO AND HOGAN

Perry Como, top TV and recording star, and Ben Hogan—only active golfer to win 4 national championships, enjoy a Chesterfield round of golf.

WHAT A PAIR!

WHAT A BUY—CHESTERFIELD King Size

(at the New Low Price) and Regular

Like Ben and Perry you smoke for relaxation, comfort and satisfaction. In the whole wide world no cigarette satisfies like a Chesterfield.

You smoke with the greatest possible pleasure when your cigarette is Chesterfield—because only Chesterfield has the right combination of the world's best tobaccos—highest in quality—low in nicotine.

In short, Chesterfields are best to smoke and best for you.
