Sauter-Finegan

Orchestra

To Play For Junior Prom

The 1954 Jonnies from Sauter-Finegan Orchestra will be presented Friday, October 23, in the Great Hall of the School of Engineering. On the following evening, an informal dance will be held in the Surinam Room of the Tiffany Hotel with music provided by Jack Edwards' orchestra.

In order to insure that all Juniors who want tickets to the dance may get them, a two-day option sale will precede the beginning of regular ticket sales on Monday and Tuesday, October 4 and 5, members of the Class of 1954 who show their registration cards will be able to buy "options." The 100 Juniors who purchase a ticket to the Junior Prom and Informal. The "options," however, will not reserve any particular table location.

Sales Next Week

Regular ticket sales will begin Wednesday morning at 9:30 a.m. in Building 20. At that time all tickets will be on sale. Beginning Wednesday, any member of any class may buy Junior Prom tickets, but sales will be limited to one table (six tickets) per purchaser. Junior options will be honored in regular ticket sales, no matter who presents them, but the options will be void if not sold by October 21.

Prof Den Hartog

Will Be Lecturer

The M.I.T. Chapter of the American Society of Mechanical Engineers will hold its first meeting of the year on Thursday, October 7, at 10:30 a.m. to 12 noon. Professor J. P. Den Hartog will discuss some of the future plans of the Mechanical Engineering Department, which he heads.

Ok For Tutoring

Must Be Obtained

From Dean Sper

Applications for approval as student tutors for 1954-1955 have been received from Miss Fitzgerald in Dean William E. Spencer's office. Members of the three upper classes and graduate students who do not hold teaching appointments at the Institute are eligible. Men who are considered physically or emotionally unsound are particularly urged to apply.

Applications returned to Room 7-133 by October 11 will be given priority. Approval is not granted for students who are enrolled in the English Language, Junior and Senior year, since this work is already substantially completed.

The apparent contradiction of urging prospective teachers to apply and having teaching appointments is an anomaly in our system of instruction. The teaching is conditioned by a faculty member, and the more contact there is between the student and the professor, the better. The system is set up to make the most of the student's abilities and to individualize instruction. This year the system has been on the staff of the Division of Industrial Education.

Robert J. Leveti, Associate Professor of Mathematics at the University of Georgia, was named Visiting Assistant Professor of Mathematics, and David W. Shue, recently from Australia, will serve as Visiting Assistant Professor of Electrical Engineering.

Six Appointments

Have Been Made To Administration

Sir Alexander Graham, who is Governor of Hong Kong since 1947, will return to the United States this fall on "a brief tour of theS. E. Asia region." He is expected to return to Hong Kong after mid-November.

Six new appointments have been made to the faculty and administrativa of the School of Engineering. "Six new appointments have been made to the faculty and administrators," said Dr. Karl Taylor Compton, President of M.I.T. "The Board of Trustees determined that there should be held early in the academic year a Convocation at which members of the Faculty, the Juniors and the graduates not here in June could pay tribute to Dr. Compton."

This Convocation will be held in Rockwell Cage on Monday, October 4, at 11:30 a.m. in the Cage. All members of the Institute, including faculty, staff, students, employees, and their respective spouses and husbands, are invited to attend. Members of the Corporation will also be present.

To permit everyone to attend the Convocation, which will start promptly at 11 o'clock, all 10 o'clock and 11 o'clock classes will be canceled. The teaching staff is requested to announce these facts in the morning classes of Friday, October 1.

JAMES R. KILLIAN, JR., President

Grantham To Lecture At MIT

On Hong Kong

Sir Alexander Graham, who is Governor of Hong Kong since 1947, will return to the United States this fall on "a brief tour of the S.E. Asia region." He is expected to return to Hong Kong after mid-November.

"Hong Kong—Its Importance to the Free World," will be Sir Alexander's subject in a lecture sponsored by the Students' Association and Social Studies, the World Affairs Council, and the English Speaking Union. It will be his only public appearance in the United States during his tour.

Robert J. Leveti, Associate Professor of Mathematics at the University of Georgia, was named Visiting Assistant Professor of Mathematics, and David W. Shue, recently from Australia, will serve as Visiting Assistant Professor of Electrical Engineering.
