THE TECH

THE INTELLIGENCE QUOTIENT OF NED FUTTY

Chloe McCallary was a beautiful woman who majored in psychology and worked in the I.Q. testing department of the university. She did not work, the only active thing about her was that she loved and admired intelligent things. She loved and admired intelligent people, and she was quite intelligent herself.

But she was smart and well educated. She was an attractive woman, and she was also very intelligent. She was a bit of a snob, but she was smart and well educated.
