Athletic Exhibitions

Among the recent suggestions brought forward was the plan that laboratory sections of some courses should be held in departments during breaks or between classes. It was also suggested that basketball, pool, and other sports be played on campus.

Finally, it was suggested that a course in "Applied Sociology" be added to the curriculum. The course would cover subjects such as juvenile delinquency, recreation, and the sociology of education.

The House Committee defeated a motion to install a shoe-shine machine in Burton House. The motion was defeated by a vote of 5-3. The committee also suggested that the room be purchased if Burton House is unable to secure a room anywhere else.
