To present to our student government a few examples of developments in the near future, and a few of the occurrences during 1954 that disturb us, is the main purpose of this column. The spirit that leads many of the students to join the Institute's teams means that we would like to see the student government with a little intestinal fortitude. Until such time as we would like to see in the near future is the spirit that leads many of the students to join the Institute's teams mean that we would like to see the student government with a little intestinal fortitude. Until such time as we would like to see the student government with a little intestinal fortitude.

It is, therefore, with a spirit of hope and optimism that we look to the future of the Institute and its teams. The future is bright with possibilities for growth and development, and we are confident that with the support and involvement of the student government, these possibilities will be realized.

We are, therefore, appealing to the student government to take an active role in the Institute's teams, to support and promote their development, and to work towards the realization of these possibilities. We believe that the student government has the power and the potential to make a significant impact on the Institute and its teams, and we encourage them to seize this opportunity.

We conclude by expressing our gratitude to the student government for their support and dedication, and we look forward to working together to achieve these goals. We are confident that with the support and involvement of the student government, the future of the Institute and its teams will be bright and充满希望的。
