Batron Society proposed featured attention to the need for a Student Alumni Center at the Institute in the near future. It included a series of tentative plans for the building which were drawn up last year by Martin Cohen '54, an architecture student who worked in conjunction with the committee. In addition, the exhibit contained a brief verbal tour of some of the highlights of the new Student Union building.

Several students examine the Student Union exhibit which graced Building 7 during the All-Tech Sing. The exhibit was located in the lobby of the building and featured a series of drawings and plans for the proposed new structure.

Batron Society Is Offering Trophy At All Tech Sing

On Saturday, March 16, the annual All-Tech Sing sponsored by the Batron Society will take place in the new Kresge Auditorium. Entry blanks and a description of the trophy to be offered as an incentive to those who will come to the All-Tech Sing appeared in the February 20 issue of The Tech.

The group with the best performance will receive the All-Tech Sing Trophy. Sigma Nu, the group which received the trophy last year, will be defending the title. The group will be judged on the basis of the presentation of the song, the arrangement of the song, the vocal quality of the singers, the choreography of the group, and the general enthusiasm of the group. The group that wins the trophy will be awarded the All-Tech Sing Trophy, which is a perpetual award and may be displayed in the group's dormitory.

The group cannot apply to the Baton Society for special consideration as entrants. All applications should be addressed to Larry Berman '54, 6611 East Campus, and must be postmarked no later than February 24. The group that wins the trophy will be announced at the All-Tech Sing on Saturday, March 16.

Jerusalemite To Talk Friday Eve For Hillel's Ong

Elshad Ben Yehuda, Hebrew philologist and noted representative of the modern Hebrew cultural revival, will lecture on "The Tongue of the Prophets" at the next Hillel Ong Shabbat to be held on Friday, February 16, in the Burton House Lounge. The lecture will follow Sabbath Evening Services scheduled to begin at 7:15 p.m.

The lecturer was born in Jerusalem in 1897 and was one of the first persons to speak Hebrew as his mother tongue. His father, Eliezer Ben Yehuda, pioneer of the Modern Hebrew Movement, first introduced Hebrew in 1880 as the everyday language in Palestine. For the past twenty-five years Elshad Ben Yehuda has been working on the first modern Hebrew Dictionary to consist of sixteen volumes. This prodigious undertaking was begun by his father who died in 1913.

Mr. Ben Yehuda, presently on leave of absence from the Ministry of Education and Culture of the Israeli Government, is lecturing throughout the United States on the Revival of the Hebrew Language and the role his father played in this program.

MATH SOCIETY MEETINGS

Professor Boehne of the Electrical Engineering Department will give a talk with slides on "Fibonacci Series" on Tuesday, February 13, in Room 2-355. All are invited.

The group with the best performance will receive the All-Tech Sing Trophy. Sigma Nu, the group which received the trophy last year, will be defending the title. The group will be judged on the basis of the presentation of the song, the arrangement of the song, the vocal quality of the singers, the choreography of the group, and the general enthusiasm of the group. The group that wins the trophy will be awarded the All-Tech Sing Trophy, which is a perpetual award and may be displayed in the group's dormitory.
