To play the hand was almost as exciting as the bidding, with a really amusing and play pseudo nerve-nippering. East's defense played very well, but was not the best quality, than he was prompted by the bidding. After the opening lead had to be South's guess, declarer could count five tricks, which is not usually enough to make the hand. The opening lead was a small heart towards West, and overtook dummy's ten with his jack. Then he started to run clubs.

South counted his card, and made the second mistake—he returned a diamond. Declarer was happy to Jack, since his five tricks suddenly looked as though they were going to grow to nine. West took his king of diamonds and was heized! Regardless of what it returns, declarer had his nine tricks. West was still fighting, though, and led a small diamond back. East now attempted to make up for his previous mistakes by ducking, but declarer was having none of that, and overtook dummy's ten with his jack. Then he started to run clubs. West had to come down to three cards, and ended up with the use of hearts.

Safirstein (Continued from Page 1)

Safirstein responded with a one club bid, and made the opening spade lead go to South's declarer could count five tricks, amazing end play and pseudo squeeze by East's opening one club bid is a reaction by South, declarer could count five tricks, which is not usually enough to make the hand. The opening lead was a small heart towards West, and overtook dummy's ten with his jack. Then he started to run clubs. West had to come down to three cards, and ended up with the use of hearts.

Stu-Fac Smoker

Student-Faculty Committee will hold a Stu-Fac Smoker on Thursday, February 24, at 6:00 p.m. in the Stu-Fac Lounge, Room 2-290. Dean Fassett is scheduled to speak.

The Student-Faculty Committee, a sub-committee of the Erskine Student Senate, offers an opportunity to provide a means of exchange of opinion between the student-teacher and faculty, and to sponsor projects far-teacher-student-faculty relationship at the Institute.

Last term's work included: organization of the students who study in the United States and abroad. The second division of L.P.C. will be a seminar and discussion group, with Ray Bowen '56 as chairman. The purpose of this committee is to inform students of the problems and the policies of the countries represented by the foreign students at MIT. This division will run seminars and discussion groups with foreign students, United States students, and perhaps interested professors. These seminars will cover such widely diverse topics as: the culture and heritage of their countries, the opinion of their countries toward the United States, and other topics of interest to the students. EIGHT BUTTERFLIES

I deeply thank those who have been interested in my work, in my research, and in the work of others. I also deeply thank the other candidate who has afforded me a wonderful opportunity to work on my ballot. I'd like to keep up the tradition.

Sarah Lawrence

(Continued from Page 1)

Although the Smoker is primarily attended by the students at MIT, the committee is holding a smoker on Thursday, February 24, at 5:00 p.m. in the Stu-Fac Lounge, Room 2-290. All interested students are cordially invited to come.

M.E. Department To Hold Fresman Open House Tour

On Wednesday afternoon, February 23, 1955, the Student-Faculty Committee is sponsoring an open house designed to give the freshmen class with the facilities and advantages Course II has to offer, and the opportunity for both freshmen and upperclassmen alike to inspect the two publicized labs as well as those frequently used as passageways. Laboratories and departments participating in the program are the Chemical Engineering Lab, the Mechanical Engineering Lab, the Labor and Workshops Lab, the Machine Design department, Metals Processing Lab, Strain Lab, Heat Lab, Analog Lab and the Applied Mechanics Lab. The Mechanical Engineering Co-op program will also be available.
