The Tech

through the mail
To the Editor of The Tech,

Dear Sir,

This letter is in response to the considerable publicity given to the Society of Osiris in the Feb.
18 issue of The Tech.

At the outset, let it be quite clear that the secret aspects of Osiris are not
imposed in its membership an attitude neither of sympathy nor of compa-
nion. Pride in secrecy, per se, is not in the nature of the Society. We
cannot condone it.

That in spite of Osiris is due to a secret organization is due

For the undergraduate members of Osiris consider first the

in line with our hopes for rapid and progressive action by the

Third, that the members of Osiris, contrary to present prac-
tices, are chosen by the members of Osiris and the whole

Fourth, that the former guidelines for secret society in our society are not
fitting. Of course, we cannot agree to a reorganization of Osiris in its
former form.

The benefits from such revisions will remove all question as to
whether our power and capabilities Osiris has, and will increase the effi-
ciency of the group in promoting interchange of ideas between

Instead, let it be our hope that the members of Osiris will be guided in their
actions by a comprehension of the purposes and ideals for which it stands,
and a recognition of the necessity for the public to know the reasons and
bases for their actions.

Sincerely yours,

Elliott Myers '58, Dick Rosen '58, Stanley Fenster '58, Donald C. Aucanip '57.

Harris Hyman '58, Robert Soli '58, Helmut Weymar '58,

Adhar Mirchandani '57, David Bentley '58, Stanley Shapiro '58.

William Cunningham '58, Solis '58, Dionald Steig '55.

Benson Chertok '57, Stephen Edelglass '56, I'aul Abrahams '56, Fredric Gordon '56, Berthold

public, so that the students may know how they are represented

An organization with the very

intention to reexamine its traditions regarding secrecy and their

response to the evidence of student fears and has announced its

that the members are not chosen be-

cause of their importance in student
government. Osiris is not, either, in

theory or in action, a legislative

body; no decisions are reached; it

the few practical results that are
from the dimensions held under its

auropic to inform the undergraduates of Osiris and the whole

inquiries are to be thoroughly reviewed

by the organization in the interest

Division of United Aircraft Corporation

Representatives of

HAMILTON STANDARD

Division of United Aircraft Corporation

FOR INTERVIEWS

THURSDAY, MARCH 2, 1955

For 35 years the name Hamilton Standard has symbolized the world's finest
aircraft propellers for both piston and turbine engines. Now it stands, too,
for the finest in a growing line of jet aircraft equipment such as:

JET TURBINE STARTERS (pneumatic and combustion)

HYDRAULIC PUMPS (variable displacement)

AIRCRAFT AIR CONDITIONING SYSTEMS

Many Hamilton Standard engineers have won international recognition for
their contributions to aeronautical science. The same opportunities await
young engineers who join our growing organization today. After a brief
training and orientation program at high starting salary, you can advance
steadily in any of our many fields of engineering activity—the one most suited to your
desires and talents.

Our modern plant is ideally located at

Bradley Field, the main air terminal, only 1.5
miles from both Hartford, Conn. and Springfield, Mass.

Among the engineers now building rewarding careers for themselves at Hamilton Standard are:

- Richard A. Allen, '49
  Chief Design Engineer
- Richard A. Allen, '49
  Assistant Project Engineer
- Harry M. Arnold, '21
  Manager, Advisory Services
- Carl E. Bobly, '51
  Quality Manager
- Charles E. C. Carlson, '40
  Engineer
- Donald W. Cunliffe, '52
  Sales Engineer
- Charles E. C. Carlson, '40
  Consulting Engineer
- Thomas C. Artists, - Tech. and Methods
  Chief Engineer
- Henry F. Anderson, '55
  Project Engineer
- Thomas C. Artists, - Tech. and Methods
  Senior Project Engineer
- George L. Everard, '45
  Assistant Sales Manager
- Ernest H. L. Black, '25
  General Superintendent
- Robert W. Jeffery, '52
  Sales Test Engineer
- Robert Johnson, '56
  Assistant Project Engineer
- Samuel Z. Lamont, '55
  Consulting Engineer
- John A. McCarthy, '31
  Senior Test Engineer
- Paul E. Olmstead, '50
  Senior Analytical Engineer
- John W. Mann, '41
  Project Engineer
- Thelen G. W. Coakley, '52
  General Manager
- Eugene F. Davis, '55
  East Campus House Chairman, did Wednesday at the Insomm

Note: Seabury
