Applications For Deferment Must Be Filed Soon

Students who wish to be deferred in Class 2-B by the Selective Service System must fill out a set of forms and notify the Registrar's Office of Military and Selective Service, Room 14-BSN. This office has a supply of these forms and many students have already filled out the first six sections. The forms must be presented for filing with the Local Boards by the Registrars' Office in July. May we urge that students come in as soon as possible rather than put it off and cause a last minute rush which would result in delays.

In view of the fact that the above-mentioned forms do not constitute a complete application in Class 2-B (student), it will be necessary for students to prepare and mail to their Local Board a letter requesting deferment for the next academic year. In this connection, a questionnaire has been prepared which when filled out will give the necessary information upon which to base a letter. Letters and forms cannot be sent automatically to Local Boards. THIS MUST BE DONE AT THE INDIVIDUAL REQUEST OF EACH STUDENT.

General Hershey allows the colleges thirty days after the end of the academic year in which to file all of the Forms 109 with the Local Boards, and this procedure will be continued. These forms are sent annually to the Local Boards and advises the students' academic standing for the previous academic year and are not based on cumulative rating as many students mistakenly believe.

About all Class 2-B deferments have an expiration date in June or July. However, students should not be surprised if they do not receive an extension of classification until later in the summer when the Boards have had a chance to make their determinations. In other words, the Boards are required to consider the classification of each student after receipt of Form 109 and a letter requesting continuation of Class 2-B deferment.

It should be emphasized that Head-

ers of the Advisory Committee on Military and Selective Service will be open during the entire summer and any student who has a question or receives a communication from his Local Board during that time should feel free to write to Mr. Lutz. This applies particularly to students who receive SSS Questionnaires.

Any change of classification test forms must be reported to this office by June 10.

Band Record
