P R C— B A C K F R O M T H E D E A D

Perhaps the most amazing recovery of an ailing limb of student government has been the successful comeback of the Public Relations Committee this year. PRC sends notices to the Boston papers, and hometown releases to the local papers. It handles much activity of the undergraduate body can be justly proud.

A short time ago we had never seen any sign of this organization's existence other than its name. Under the revitalized chairmanship of B. Peter Toocy '55, PRC is once again performing the function for which it was originally established, the dissemination of Institute news, to the student body and to the public. PRC is doing its job in a manner of which every member of the undergraduate body can be justly proud.

In its final session, the old Incom council succeeded in establishing the potentially most useful and effective Student-Faculty group yet designed—the Liaison Council. This small group of six students and hometown representatives of Faculty and Administration will meet with representatives of Student-Faculty groups this year. PRC-BACK FROM BOSTON, Benson Chertok '57, Stephen Edelglass '56, Paul Abrahams '56, Fredric Gordon '56. The council is adequate testament to the need for dissolution of the potentially most useful and effective Student-Faculty group of the undergraduate body can be justly proud.

A C O M P U S T o - C a r e e r C a s e H i s t o r y

He figures for the future

It's James Kirchoff's job to look ahead. As a Plant Engineer with Illinois Bell Telephone Company, he helps estimate telephone equipment needs in advance.

For example... when a new real estate development is in the planning stage, Jim figures how much telephone equipment will be needed when the development is completed. His estimate is based on his knowledge of the equipment's potential plus forecasts provided him of the area's rate of development. He then makes a complete report that becomes the basis for planning.

Following the meeting, the Internal Revenue Service will audit all the work and income tax reports. We hope to see the report soon as possible.

Jim can take a look at his own future, too. In telephone engineering he can see great opportunities opening up in the next five years... his chances are extremely good. Jim is currently enrolled in a graduate course and plans to work toward it.

The combined MIT-Smith orchestra gives concert

by J. Philip Bronberg '56

Perhaps it was due to the presence of the prenty Smith College music, or to the aesthetic sensibility of the group's existence other than its presence on flow charts. Under the stewardship of Benson Chertok '57, Stephen Edelglass '56, Paul Abrahams '56, Fredric Gordon '56. The council is adequate testament to the need for dissolution of the potentially most useful and effective Student-Faculty group of the undergraduate body can be justly proud.
