Latino Photo Show

Club Latino is presently sponsoring a
photography exhibit on Wednesday,
September 27. Several hundred camera
stills fill the lobby of building two.
The majority of these pictures typify the
artistic Latin-American community
while the remaining exhibits give
general views of the nation's life.
After the MIT Bridge Club, which will last till
Saturday, the exhibit will be presented
elsewhere. Club Latino sponsored the
show to give Americans a truer picture of
the progress made currently in Latin American countries.
The club hopes to present similar ex-
hibits, periodically.

Why do more college men and
women smoke VICTEROYS
than any other filter cigarette?

Only Viceroy gives you a pure, non-mineral, non-toxic filter with 20,000 filter traps in every filter tip!

Yes, only Viceroy has this filter composed of 20000 tiny filter tips. You can't obtain the same filtering action in any other cigarette.

3. Besides being non-mineral and non-toxic, this cellulo-acetate filter never shreds or crumbles.

3. The Viceroy filter wasn't just whipped up and nailed to market to meet the new and growing demand for filtered cigarettes. Viceroy pioneered. Started research more than 30 years ago to create the pure and soft filter tip.

4. Smokers en masse report that filtered Viceroy's have a finer flavor even than cigarettes without filters. Rich, satisfying...yet pleasantly mild.

5. Viceroy draws so easily that you wouldn't know...without looking, that it even had a filter tip...and Viceroy costs only a penny or two more than the cheapest cigarettes without filters!

That's why more college men and women smoke VICTEROY" than any other filter cigarette...that's why Viceroy is the largest-selling filter cigarette in the world!
