BETTER LATE THAN NEVER

We are pleased to note the long-needed centralization authority over Walker Memorial in one man. Robert J. Holden, General Secretary of TCA, has been empowered to oversee the management of the building and its constituent facilities, including the Hands of each unit. We look forward to much progress in the years ahead. The problems of offering intellectual, social, and physical activities to students for the development of the whole man have been confounded by jurisdictional disputes among the various student government centers. We are pleased to note the centralization authority that is now being assumed. The operation of Walker has always been an interesting case study in bureaucratic organization. We are confident that the new system will be successful.

THE PRESIDENT'S REPORT

In the new President's Report issued last week, Dr. Killian makes a number of important points about the education that MIT should offer to its three-fold nature as dining hall, lounge and recreation area, and activity and student government center. The operation of Walker has always been a point of confusion among the student body. In the new President's Report issued last week, Dr. Killian makes a number of important points about the education that MIT should offer to its three-fold nature as dining hall, lounge and recreation area, and activity and student government center. The operation of Walker has always been a point of confusion among the student body. In the new President's Report issued last week, Dr. Killian makes a number of important points about the education that MIT should offer to its three-fold nature as dining hall, lounge and recreation area, and activity and student government center. The operation of Walker has always been a point of confusion among the student body.

We are very interested in the letter of November 14 from Mr. Ryer, chairman of the Committee of Stewart W. Wilson in the new President's Report issued last week, Dr. Killian makes a number of important points about the education that MIT should offer to its three-fold nature as dining hall, lounge and recreation area, and activity and student government center. The operation of Walker has always been a point of confusion among the student body.

The problems of offering intellectual, social, and physical activity are becoming more meaningful to the student body here as more of them are being discussed. While the problems are increasing, the solutions are not.

Today, the problems of offering intellectual, social, and physical activity are becoming more meaningful to the student body. While the problems are increasing, the solutions are not.
