beaver barks  
by F. Helmut Weymar '58

There occurred Wednesday morning an incident which brought to the fore a round a severe lack of coordination between two branches of the student government. Early in the morning Dick Fox, publicity manager of the Athletic Association, hung a banner in the staircase at the junction of Buildings 2, 4, and 6, publicizing the Saturday afternoon game which was played last night.

Shortly thereafter, members of the publicity department of Secretariat took the banner down, asserting that the first that Fox had learned, the Secretariat's permission to hang the banner up in the first place, and besides, there already was hanging another banner in the staircase. Fox's action in getting up banners publicizing Athletic Association contests well in advance is highly commendable, while on the other hand, the Secretariat, one of the harder working organizations in the school, has hardly been honored for upholding its rules.

The Tech, not relying with one or the other of the organization, falls partially on both. The Secretariat, it seems to the Tech, has as a rule been far too lenient in the execution of student body rules. In the case before the Tech, the latter has yet to put them up. Nevertheless, there are more and more possible effective methods for publicizing games. First, and most obvious, arrangements could be made to give the Athletic Association permanent priority to hang banners in the stairwells at the junctions of Buildings 2 and 4, and 5 and 7, neither of which is at present in use.

Another possibility would be effectively located sports bulletin boards in the lobbies of Buildings 2 and 5, along with the main entrance of Rockefeller Cage.

It is advisable that all signs given in the latter possibility they will come from the administration rather than from Secretariat, since the administration has been against bulletin boards in main lobbies in the past, notably in Building 16. Building 16, with the honor roll of war dead, is in a category by itself, but we see no reason for a ban on small athletic bulletin boards in the other lobbies mentioned. Should the administration, the Athletic Association, and Secretariat get together on this matter, a reasonable and effective solution could undoubtedly be worked out giving Institute athletics much needed publicity.

Engineer Races to Face Dartmouth

Looking forward to their first fall season on the MIT Memorial Rink, the Engineer hockey team takes to the boards tomorrow night at 7:30 to face a highly rated Dartmouth squad. Returning in the Cardinal and Grey line-up are, and perhaps with a 2-0 in the AIA meet.

His return from last year's squad, the team is looking much better than it did at this time last season. In the opening game last year Dartmouth was the winner by an un-scorable, but the advantage of the tricky home ice plus the home crowd should be in good shape for the game.

With several holdovers from last year's squad, the team is looking much better than it did at this time last season. In the opening game last year Dartmouth was the winner by an un-scored goal, but the advantage of the tricky home ice plus the home crowd should be in good shape for the game.

Returning in the Cardinal and Grey line-up will be Captain A. C. Ridgely '56, who did a great job last season. The starting defense, believed to be composed of Jim Conlin '56 and either Jim Boyer or "Killer" Paul '56, Bill Salmon '57 and Paul Eklund '57, will go out on the lines. The first front line will find Fred, Sabin at left wing; John Sullivan '56 at center, and Rev Gordon '57 at right wing. Filling out the remaining lines will be Wally Lockman, Hungarian Bill '57, Dave Nelson, Paul Eklund, and Sugar. Give to TCA

ATHLETIC RACISME (Continued from page 5)

The secret of his team value may be found in his performance in one triangular meet last spring in which he sparred on teammate in both the miles and two-mile races, eventually finishing in a dead heat with them in both races.

Rois is a physics major and a fine student. What little free time he has left after his studies, running, and numerous hours spent working in the Synchrotron Lab, he likes to use for reading, swimming, and camping. He has also managed to swim in expressways flooded by hurricane rains.

A Campus-to-Career Case History

He's building a Foundation for his Future

Paul Gould, E.E., Purdue, '49, started as a student engineer with Long Lines—the Bell System unit that interconnects Bell Telephone Companies. In the student training program he became familiar with all operations of the business.

After that he spent two years on technical and engineering projects that took him to Indianapolis, Cleveland, and Atlantic.

March of 1955 found Paul in Cincinnati working on the construction of radio relay routes. He worked with the newest microwave equipment that transmits television pictures and telephone conversations simultaneously.

In 1955, as part of his further development, Paul was transferred to a completely different assignment. He now supervises the important planning and scheduling job of balancing a working force of 900 Long Distance operators with the ever-changing work load.

"I use my engineering background on this job, too," says Paul. "It's extremely interesting and has lot of responsibility. Besides, you need experience in more than one department to give you background!"

Paul Gould is typical of young engineers in the Bell System. Similar career opportunities exist in the Bell Telephone Companies, Bell Telephone Laboratories, Western Electric and Sandia Corporation. Your placement officer has more information on these companies.

Three New Wrestling Coaches Appointed

Developing MIT's wrestling potential has long been a weak point in the athletic program. This year new wrestlers have been added to cultivate the material for this sport here. In addition to the new coach, an exchange system with the YMC of Union is bringing experienced wrestlers and help to sparr at the meet.

Jim Maloney, who is the new varsity wrestling coach, has been seven times New England AAU Champion. Jim also coaches at the YMC Union, and was captain of the Boston University wrestling squad. Before coming to Tech he coached at the Phillips Exeter Academy.

The other varsity coach is "Eddy" Adrian Haddock. He hails from Lebanon, was National Champion of his country, and also captured the Mediterranean Wrestling Crown in '56 and '58. Eddy received his degree from the Italian University in Lebanon. An all-around athlete, he has coached judo, boxing, swimming, and weightlifting, in addition to wrestling.

The Fresh men are off to an excellent start this year by Dr. Frank Steele. While at Tufts, Dr. Steele was captain of their wrestling team. In addition to the many inter-collegiate titles, Dr. Steele was a finalist in the National AAU Wrestling contest.

This season the Tech wrestlers have the same strength of working out with experienced men. The Boston YMC Union and Tech have an exchange agreement. Jim Peckham is currently giving MIT's grapplers the benefit of his experience. Jim is a National AAU Champ.

THE FIRST PARISH IN CAMBRIDGE-UNITED KINGDOM

Harrar Square, Cambridge
The Rev. William B. Niley, D.D., Sunday, December 4
11:00 A.M.: Morning Worship Service 6:45 P.M.: The Ellet Club
For college-age young people

Dr. George A. Butterick
Planker Professor of Christian \nLoch of Harvard University
Topic: Some Comments on Mitic and the Church \nDissent and Coffee, Speaker: \nWorship Service, Social Hour
The Parish House
3 Church St.

FORMAL WEAR FOR HIRE

Double Breasted Tuxedo
$1.50

Single with Combed Hair
$1.25

Open Monday Night Till 8:00 P.M.

MIDWESTERNERS

Why pay $69.22 for reserved seats on the "New England States" to Chicago this Christmas when the C and C. Travel Plan is selling identical service for $9.80?

¿Why fight ticket lines? Why not follow the 98 people who used last year? If you value money or convenience—glance at the bulletin boards or call UN 4-0626.
