Johnsen in Chapel
Organ Recital SUND.

I will be an organ recital! In the g Chapel at 3:00 p.m. this Sunday, in Mary F. Johnsen, organist, will play works by Bach, Schwin-

del, and J. S. Bach. Many in Johnsen will play the Bach Toccat in D major for organ.

Regional Work
In addition to these four national commissions, the NSA supports re-
gional organizations throughout the nation. MIT is one of the 30 mem-
bers of the New England Region, which is both a miniature USNSA, by the New England states and an
intermediary between the national or-
ganization and the individual campus. The New England Region also sup-
ports subcommissions in each of the
four major areas of NSA activity. The
region is held together by four area
representatives who bear the individual
requests during the school year. Adminis-
tration of USNSA at the Institute is
handled by a NSA coordinator, who coor-
dinates subcommissions from the national and re-

Interviewing Today
For Participation in
Scandinavian Study

Applications and reservations are now being accepted for the Scandinavian Seminar for Cultural Studies. This
institution offers studies in Denmark, Norway, or Sweden. The students take part in five weeks of orientation
courses, live with families for six weeks and then attend the folk schools which are residential colleges where
the principal emphasis is on the study of the humanities. The entire course lasts for one school year.
Miss Molly Day of the staff of the Scandinavian Seminar will be in Boston from January 5 to 12 for inter-
views with all students interested in spending a year under this program, either junior year or after graduation.
She may be reached at the Interna-
tional Student Center on Garden St. in Cambridge.
Miss Day will be available for in-
terviews on Friday, January 6 in Room 331, School of Education, 33 Bay State Road at Boston University from
11:30 a.m. to 1:00 p.m.
If there is sufficient interest shown at the Institute, an interview session will be scheduled on campus.

One open door after another

"That's how I feel about the telephone
company," says Walter D. Walker, B.E.E., University of Minnesota, "I joined the company I felt that
I could go in any direction. And that's
the way it's been.
"For the first six months I was given
on-the-job training in the fundamentals
of the telephone business—how lines are
put up and equipment installed. Learning
those fundamentals has really paid
off for me.
"Then I had the opportunity to go to
the Bell Laboratories in New Jersey.
I worked on memory crystals—ferro-
electric crystals—for use in digital com-
puters. I found how important research
is in the telephone business.
"After two years I came back to Min-
nesota, to St. Cloud, to work in the
District Bell Engineer's Office. There
I made field studies of proposed con-
struction projects and drew up plans
to guide the construction crews. This com-
bination of inside and outside work
gave me invaluable experience.
"In July, 1955, I came to Minneapolis
as an Engineer in the Exchange Plant
Extension Engineer's Office. We do fore-
casting—not of the weather, but of fu-
ture service needs. Using estimates of
growth and economic studies, we make
plans for the years ahead. We fig-
ure out where and when new facilities
will be needed to meet future growth.
"All this has been preparing me for a
real future. You see, the telephone
company is expanding by leaps and
bounds. That's why it offers a young
man so many open doors.

Wally Walker's career with the NorthWestern Bell
Telephone Company. Similar career opportunities
exist in other Bell Telephone Companies, and in
Bell Telephone Laboratories, Western Electric and
Sylvania Corporation. Your placement officer has
more information regarding Bell System companies.

A Campus-to-Career Case History

No matter what
shaving machine you use...

start with
Old Spice
PRE-ELECTRIC SHAVE LOTION

and get a faster, closer shave. Pre-Electric Lotion
substantially increases the shaving time of your favorite
shaving method. "Swiftly"-against the razor for grey
guiding. Lubricates the cutting edges for greater efficiency.
