Life Insurance Plan Aids Seniors, School

Members of the senior class are now able to insure a large class gift at the twenty-fifth reunion as well as make an investment in their own future, by means of an insurance plan offered by the Provident Mutual Life Insurance Company in cooperation with the Institute. Under this plan, each student who registers with the Institute, and who makes annual contributions of funds over a period of five years, will receive a guaranteed dividend on this policy of $5,150. This is equal to nearly half the number of seniors who took out similar policies last year, and may foretell the number of seniors who will sign up for policies of this nature.

The present plan offers the student a guaranteed dividend of $5,150. This dividend is paid out when he reaches 65. For the $10,000 policy the net gain is close to $910, and the total value over the years would be $76.10, and the quarterly payments $38.80. The premium for the $5,000 policy amount to $49.90 semi-annually, or a total value of $11,760, and for the $10,000 policy the net gain is close to $96.90 annually, or when mid-afternoon comes make an investment in their own future, by means of an insurance plan offered by the Provident Mutual Life-Insur ance Company in cooperation with the Institute. Under this plan, each student who registers with the Institute, and who makes annual contributions of funds over a period of five years, will receive a guaranteed dividend on this policy of $5,150. This is equal to nearly half the number of seniors who took out similar policies last year, and may foretell the number of seniors who will sign up for policies of this nature.

In the case of the $10,000 policy, the premiums for the first two years would be $76.10, and the quarterly payments $38.80. The premium for the $5,000 policy amount to $49.90 semi-annually, or $49.90 quarterly.

Each senior who is insured will contribute some $700 to the class gift and still have a large net gain when he reaches 65. For the $10,000 policy, this dividend is paid out when he reaches 65. For the $10,000 policy, the net gain is close to $96.90 annually, or a total value of $11,760, and for the $5,000 policy the net gain is close to $910, and the total value over the years would be $76.10, and the quarterly payments $38.80. The premium for the $5,000 policy amount to $49.90 semi-annually, or $49.90 quarterly. The premium for the $5,000 policy amount to $49.90 semi-annually, or $49.90 quarterly.

The guest of honor, Professor Karl W. Deutsch of the Humanities spoke about the developing section of political science at the school. He emphasized that MIT was an excellent location for such work, particularly considering the rapidly growing interest in political science that the society is trying to encourage.
