**J. Paul Sheedy** *Was Up A Tree Till Wildroot Cream-Oil Gave Him Confidence*

"Gorilla my dreams, I love you," said Sheedy outside his sweetie's window. But she was playing it cagey. "Get lost Gargantua," she said. "I've seen better heads on coconuts." Then Sheedy got wise to Wildroot Cream-Oil. Now he has confidence in his ape-earance because Wildroot keeps his hair handsome and healthy looking the way Nature intended ... neat but not greasy. Contains heart of Lanolin, Nature's finest hair and scalp conditioner. So don't monkey around with messy hair. Get Wildroot Cream-Oil, America's largest selling hair tonic. Use Wildroot Cream-Oil every day and you Congo wrong.

**NOW-SPERRY ENGINEERS**

project a proud past into a new realm of ENGINEERING OPPORTUNITY FOR YOU!

The MISSILES SYSTEMS DIVISION

Drawing on a 90-year history of engineering accomplishment, Sperry now adds a Missile Systems Division to its ever-expanding organization.

"From," of course, are not old a story with Sperry engineers, from the installation of the First gyro-stabilized control in Navy warship, back in 1911, to a myriad of electronic wonders today. Sperry has been busy working miracles of progress. And Sperry Engineers are seriously qualified to embark on their newest project. Their unique experience with missiles and associated systems make them extremely competent in this field. As a result of record, very back in 1918 Sperry engineers successfully developed the first radio-controlled "guided missile."

What all this means to engineers is much of a promising line of work would be clear. In Sperry's new Missile Systems Division, offered opportunities are many and only can you can tap the tremendous potential in the field of missiles and related air-fcre equipment, but you can do so from the well-established base of a stable organization. Over 1900 employees here have been employed by Sperry for more than 15 years. And, as Sperry grows, you will grow . . . to professional stature and in personal gain.

Consider These Exceptional Opportunities For Engineers In the Following Fields:

- Feed Back Control Systems
- Magnetic Amplifier Circuits
- Aerodynamics
- Systems Analysis
- Radar Systems
- Environmental Test
- Stabilized Platforms
- Reliability

RELOCATION ALLOWANCES - LIBERAL EMPLOYEE BENEFITS

AMERICAN HOUSING IN Beautiful Suburban County Type Area

FURTHER ADVANCE PENSION (5 years service in one of plant)

RUSSIAN PLANT WITH Great Technical Facilities

ASSOCIATED WITH OUTSTANDING PROFESSIONAL PERSONNEL
