Nothing Definite Yet, But: Baldwin Seen Leaving Dining Post; Outside Firm May Run Commons

The Dining Service, now an Institute-run branch of the Division of General Services, may soon be operated by an outside management firm. This was revealed by R. Colin Maclaurin, Director of General Services, in connection with a report that present Director of Dining Services (who would be an Institute employee) has, as the other possibility, would consider hiring an outside management firm.

The first step is improving the current situation was taken last week when the Dining Service opened the main dining hours of the Graduate House to Commons between the hours of 6:30 and 9:30 p.m., and that the utilization of 100 women students be given immediate consideration.

Among the other colleges which have tried to get their female students to become familiar with the Cambridge area is the Women's Union of the Massachusetts Institute of Technology. This has resulted in an appreciable increase in the number of meals served to women students during the past few weeks.
