UMOC Contest Set; Ugliest To Get Prize, Date With BU Queen

Alpha Phi Omega has announced that their annual Ugliest Man on Campus contest will run between the 3rd and 6th of December. The purpose of the contest is to raise money for the Cambridge Boy Scout Group. The contest will be held at the Cambridge Boys' Camp. In the past, the contest has been very enthusiastically received by the students. The contest can be sponsored by the UMOC (University Men's Octave) and UMOC (Ugliest Man on Campus).

MIT Enter Debate Out-Talked At Tufts

At a novice debate tournament held at Tufts University on Saturday, the 3rd, MIT placed second. The college represented was: Tufts, Dartmouth, Emerson, Boston University, Wesleyan, Western Poly Tech, P & N Barrington, and MIT.

The MIT affirmative team consisted of Lloyd G. Foll and Mike Walden. Wayne Hayden and Jasly Puzo made up the negative team. Dartmouth won the tournament, winning five of their debates and losing none. MIT also had a score of 5-1, but their aggregate was 244 out of 300 as compared to MIT's 235.

MIT's affirmative speaker was also from Dartmouth. The college represented was: Richard Rosenthal, Holman of B.U., School of Nursing, was elected to the Dormitory Christmas Formal.

WHERE'S THE RIGHT CAREER FOR THE YOUNG ENGINEER?

Take a look at the big projects awarded Convair—proof of engineering challenge, opportunity and security.

Convair has the greatest diversity of aircraft and missile projects in the country—to offer you the unlimited career opportunities you seek.

Convair engineering department is a real "engineer's" engineering department—imaginative, energetic, explorative. You will discover top-notch engineering facilities, excellent working atmosphere, salary, personal job advantages, opportunities for continuing education.

Representatives from these two Convair locations will be chosen by ballot, the price of each ballot being a one-cent donation to the B.U. News.

CONVAIR POMONA CALIFORNIA

CONVAIR SAN DIEGO CALIFORNIA

Diversified projects at Convair, San Diego, include high performance fighters, new commercial jet airliners, the Atlas missile, study of nuclear aircraft, plus a completely integrated electronic development program.

The Convair engineering department at this division is engaged in a long-range, advanced program of research, design and production of special weapons for the U.S. Navy. The famous guided missile, "Terrier," is a product of this division of Convair at Pomona in Southern California.
