9 a.m. - 5 p.m.
Wednesday
March 6th

THE FLUOR CORPORATION, LTD.

Engineers-Contractors
2500 South Atlantic Blvd.
Los Angeles 22, Calif.

The '57 Chevy can give lessons on taking curves and holding the road to just about any car going.

A car has to have a special kind of build and balance to keep curves under control. And nobody excels Chevrolet in that department! It "corners" with all the solid assurance of an honest-to-goodness sports car.

And if the road should turn upward, Chevy can take care of that nicely, too—with up to 345 b.h.p.*

Come on in and take a turn at the wheel of a new Chevrolet.

*270-h.p. high-performance V8 engine also available at extra cost
