Graduates in Engineering...Physics...Mathematics

Lockheed Representatives of the California Division and the Georgia Division will be on campus Thurs. & Fri., March 7 & 8
You are invited to consult your placement officer for an appointment. Separate interview will be given for each division.

Both divisions of Lockheed are engaged in a long-range expansion program in their fields of endeavor.

California Division activities in Burbank cover virtually every phase of commercial and military aircraft. Seventeen different models of planes are in production, including cargo and passenger transports, high Mach performance fighters, jet trainers, radar search planes, patrol bombers. B. S. graduates who wish to attain a Master's Degree will be interested in the California Division's Masters-Degree Work-Study Program. In the program, participants achieve their M.S. while working concurrently on Lockheed's engineering staff.

At Lockheed in Marietta, Georgia, new C-130A turbo-prop transports and B-47 jet bombers are being manufactured in the country's largest aircraft plant under one roof. The division is already one of the South's largest industries. Moreover, a new engineering center is now in development as part of the division's expansion program. In addition, advanced research and development are underway on nuclear energy and its relationship to aircraft. A number of other highly significant classified projects augment the extensive production program.

This broad expansion program is creating new positions in each division. Graduates in fields of: Aeronautical Engineering, Electrical Engineering, Mechanical Engineering, Mathematics and Physics are invited to investigate their role in Lockheed's expansion.

Police And Rioters Suffer Few Injuries

Most of the injuries received by participants in the riot did not require treatment, but at least one student and three policemen were reported hospitalized.

One bystander, a student from East Campus, was hit on the head by a policeman's club. He was taken to Massachusetts General Hospital for treatment and x-rays, but was not held overnight. One policeman sprained his ankle while climbing stairs, and another tripped over one of the wires on the Baker grounds. A third policeman was hit in the face with a bottle and had several teeth chipped.
