letters

To the Editorial Chairman, The Tech:

One of the most deplorable things about the Institute is the careless attitude of the students toward their dormitories. Oberlin has a high school which has spontaneous spirit and self-pride, I was really shocked to see that MIT students had apathetic spirit. It is a bad situation, it seems to me, and, since I think that the Institute’s problems is its apathy, I was rather aroused by the excerpt from the Baker Letter printed in The Tech March 1. I submit the Baker Letter’s problems in a solution as follows. It is a bias situation, “let’s forget it” attitude and solve nothing. It contributes more and more to making problems arise from this apathy. I was rather aroused by the excerpt of the Corporation partially composed of the officers of the Institute and two former UAP’s, subject to the approval of the faculty, to form a dormitory system which would normally be the conditions for playing not, with no regard for reputation (the definition of apathy), and in dudgeon of “those whose personalities formed the outlet of playing games.”

Dean Bial’s statement recognizes the point that the administration will never pay any heed to the student voice unless it is a mature and sensible one. No group of grown men with a school to run is going to take time to placate a bunch of babies crying in their cribs and wetting their diapers.

I wonder what kind of pre-election article Lilie, Rosenbluth, and Brown and Princeton, all the colleges thought they were coming from a high school which had spontaneous spirit and self-pride. I did and the people there showed me the right policy and needs, an inexpensive one that I can afford. This direct-to-buyer method lowered selling costs—saved me money.

Why don’t you look into Savings Bank Life Insurance?

Norden-Kety’s continuously planned expansion program and interesting projects provides a greater potential for you as a graduate engineer.

A balance of commercial and government long-term projects provide varied assignments in the United States or overseas. These add up to unlimited opportunities for your personal advancement and recognition.

ENGINERS ME and EE

6 months individual personalized training. All modern fitness benefits including tuition refund program for graduate students.

Milford borders Long Island Sound, is 10 miles from New Haven, and 1½ hours from New York City.
