Intramural Eligibility Rules
To End Confusion On Issue

The Tech is publishing the rules for eligibility in Intramural contests to answer a few questions that have been of interest around the campus. These rules, as sanctioned by the Athletic Association, are as follows:

ELIGIBILITY
A. All players must be students or members of the faculty of the Massachusetts Institute of Technology registered for the term in which they participate.
B. Each player must be a bonafide member of the organization for whose team he plays.
C. A person shall be ineligible for the "corresponding intercollegiate sport" to Intramural Softball.
D. Team rosters giving full name in alphabetical order must be submitted to the Athletic Association for at least one year before participation in an intramural program may be in order. This, however, eliminates him from participating in any other living or faculty group.

A. A person shall be eligible for participation in an intramural sport if:
1. He has been offered or has received a varsity letter in the corresponding intercollegiate sport at MIT, Tackle Football, or any other eligible institution.
2. He is currently trying out for an MIT varsity, junior varsity, or freshman intercollegiate team in that sport.
3. He has previously participated on a varsity, junior varsity, or freshman intercollegiate team in that sport.
4. He has previously participated in a varsity, junior varsity, or freshman intercollegiate contest at MIT or at any other eligible institution in that sport during the academic year.
5. He has previously participated professionally in that sport.
6. He does not fulfill all the requirements as a member of a participating group as outlined elsewhere in the Intramural Handbook.

Qualification for a letter shall be considered as having been offered a letter.

Baseball shall be considered the "corresponding intercollegiate sport" to Intramural Softball.

Squash Rally Will Be Held October 23; All Men Are Invited

A squash rally for prospective Varsity and Freshmen players will be held on Wednesday, Oct. 23, at the squash courts by the Alumni Pool at 5:00 p.m. All who are interested in learning about the sport are urged to attend. Coach Edward Grocker will be present to answer questions.

Squash at MIT offers both intercollegiate and NRA competition to accommodate all players.

ESSE RESEARCH works wonders with oil
Bright promise of pleasure

SWIMMERS
Join the Varsity or Freshman Team Report to Pool Monday-Friday 5:00 P.M.

On their way from manufacturer to store to you, metal parts stay bright thanks to a thin coating that prevents rust. You can’t see it. You scarcely feel it. But these petroleum-based products of Esso Research are also helping roller skates to stay bright, knives and razor blades to stay keen. Often in such unusual ways. ESSE RESEARCH works wonders with oil.
