MIT Frosh Booters Come From Behind To Deadlock Exeter

Playing inspired ball throughout the second half, MIT freshman soccer team came from behind three times (time-walking) for a 2-2 tie against Exeter 3-3, in the encounter, an aggressive Beaver defense on the alert throughout.

A few minutes before the close of the opening half, a freakish bit of luck gave the Humans their second tally. Right wing John Vlcek passed the ball from along the sideline to direct in front of the Exeter goal, where one of their fullbacks headed it through the posts. Thus the beams went into the intermission even at 1-1.

Midway through the third stanza, the visitors went in front for the third and final time. As on their first tally, they found Beaver reconsiderations Frankenhuis helpless when the ball sailed out of a melee of booters in front of the team's goal, and into the cords.

But the Engineers were not to be denied, and a few moments afterward their hopes materialized when left wing Dick Nivala toed the leather sphere into the nets from thirty yards out. The visitors went in front for the fourth tally. Right wing John Vlcek gave the Beaver freshman a lead for the second time, but the Engineers were not to be denied, and a few moments after his first goal, the Exeter goalie was screened by several defenders.

To Deadlock Exeter 1:15

To each Variety Letterman
This year, for the first time, the Athletic Association will award a sweater to each man winning a variety letter. In the past only a variety letter was awarded to the outstanding athletes on each team. The variety sweater will give increased recognition to those men throughout the MIT community. In succeeding years the sweater will be awarded to the player who was his first letter. It is estimated that over 225 athletes will win sweaters for next year. A man a year has won in a sport is designated by the number of white diagonal lines on the letter.

The variety letter sweater will be given to those athletes who regularly attend practices and games in their sport and, depending on their sport, either participate in a certain number of games or accumulate a certain pre-determined number of points. In unusual cases a coach may also recommend for a variety letter sweater a player who was unable to meet the regular requirements.

HUSKIE LEAGUE
(Continued from page 7)

Phi Kappa will meet in Saturday's encounter with the winner gaining the right to meet Baker House for the championship on Sunday. In their first encounter, Lambda Chi Alpha rolled over Phi Kappa 25-8 and the final goal should be the same result, although the score should be closer.

Baker House, again at full strength with the return of veteran Terry Glass '59, Ron Rosenegg '59, and Marv Alper '59 have a strong favorite to capture top honors. During light stunts held during the week, following last Sunday's exciting victory over Lambda Kappa, the Baker Unit solved through the middle of the Doms line, led by hard charging fullback Frank Sherman '58, guards Frank Tapparo '60 and Steve Halpert '60 and the kicking of Mike Wolfe '60, should be a position much trouble in the afternoon.

League VII
League VIII finds the 3-5 Club leading with a 3-0 record entering the final round of competition. The 3-5 Club boys should encounter little trouble from Chi Phi currently boasting a 1-0-1 record. In the other league game, Theta Xi will edge out Grad House Fishing Staff, although the only thing either club can boast to date is a large amount of spirit and enthusiasm.

League IX

Tau Epsilon Phi, 2-1 meets Phi Kappa Kappa 3-3 in the final round. Tau should prove the stronger and clinch the title, but don't expect Sigma Kappa to go down without a fight. This game could conceivably be the closest contest.

League X

Baker House 12
Delta Epsilon 20 Sigma Alpha Mu 18
Phi Kappa Kappa Sigma 6
Leakey I

Alpha Tau Omega 6 Sigma Phi Epsilon 7
League V

Phi Mu Delta 20 Theta Delta Chi 6
Phi Delta Epsilon 17
