Dorm Meets With Deans To Discuss Open House Rules; No Plans Formulated

The Dormitory Committee discussed the problem of Open House Regulations with members of the Administration at their meeting last night. In response to a statement of the Corporation Committee on Student Activity that they were "dissatisfied with the present situation on Open House Hours" DormCom referred the matter to the Rule to discuss the issue. The meeting was taken up with a question-and-answer period between DormCom and the Administration to increase the positions of both sides. Bob Hecht, President of DormCom, said that no specific agenda had been set for the meeting.

Dean Fasett agreed that the meeting was devoted to palliatory explanations and discussions, with no official plan of action to come out of the meeting. It was the Administration's position.

At the present time, DormCom is the sole agency of the Student government dealing with the problem. Hecht said that his group, as well as the Administration, was ready to do whatever would be necessary to solve the problem. He said, "The opinion of the majority of students is that dormitories are inadequate and should be handled out for maintaining Open House dishonesty. We will be ready to look into the question." A few students, however, felt that it would be better for DormCom to offer a compromise plan, acceptable to both sides, at the beginning of the negotiations. At this meeting, no plans were offered, but a date for subse-

Fun Without Harm Is Wanted As East Campus Field Day Activities Get Underway

The East Campus Field Day activities started last Saturday with a tug-of-war between East Campus freshmen and sophomores. Winners of this event, the Sophomores were awarded the Purple Shaft. Since then, however, it has been stolen by freshmen, who had possession of it at last report. During the week members of the class in possession of the shaft try to present it to one member of the other class in the presence of the junior classmen and a member of the subcommittee supervising the Field Day.

More Than Saturday

Next Saturday there will be two more tug-of-wars between the classes of '61 and '60. Each of these pulls, with an unlimited number of Sophomores and Freshmen eligible to participate.

Also next Saturday the traditional Glove Fight will take place. The location of the combat has not been revealed. It will probably occur sometime in the afternoon.

Marvin Manheim, '59, chairman of the East Campus Field Day subcommittee, stated that, "the feeling in East Campus is definitely in favor of such events as the Glove Fight and the Purple Shaft—more so, perhaps, than elsewhere on campus. The program which resulted from the Field Day events did not take cognizance of this feeling.

We on the committee feel that 'drop-in' should be available in games designated for all those who wish to indulge, without going to property to those who are not desirous of participating. The regular program for the East Campus Field Day as approved by the East Campus House Committee is best summed up by the Monday Morning Club in the Vector, East Campus newspaper, "as long as one is hurt, let us have fun."

WTBS Premier "Campus Forum" Will Highlight Principle Problems

A new show, "Campus Forum," will be featured this Thursday at 8:30 p.m. by MIT's campus radio station, WTBS. The weekly half-hour programs will be designed to introduce MIT personnel to the student body, and will feature inside stories on such facilities as the nuclear reactor and IRX Computing Facility. Opportunity to improve interaction with students is being sought by involving students, professors, and other members of the undergraduate body.

Increased Campus News

WTBS has long felt a need for increased coverage of MIT events, news, and issues, and as a result has given its resources to programming in this area. Recent campus news broadcasts are set to begin shortly.

Dorm Situations To Be Altered

The Red Cambridge will feature David R. Walbaum '50, Director of WTBS, the campus radio station, discussing the current situation and the increased emphasis on students chosing to move out. The interview will attempt to bring to light the reasons behind the Administration's request for more stringent open house rules, and Dorm Com will discuss the possibility of extending open house rules, and Atmata and Dorm Com discussing the necessity for revising the present set-up.

Technical Notes

The 17th Annual Convention of Pi Tau Sigma, national honorary mechanical engineering society, will be convened tonight with a banquet to be held in the Crystal Room of the Hotel Kensington at 7 o'clock. The convention is expected to attend a large number of delegates from many colleges across the nation.

Select Group

The MIT chapter of Pi Tau Sigma is a select honorary fraternity for Courses II, I, and II, and only 10 percent of the seniors are eligible, with those seniors who are in the upper 10 percent of the seniors are eligible, with those seniors who are in the upper 10 percent being chosen.

Students, Faculty Discuss Issues at Annual Leadership Conference

Last Friday, with an eight p.m. dinner at the Dexter Inn in Dexter, New Hampshire, the 1957 Leadership Conference held by student government began. After a day spent with Administrative, student, and faculty dealt with problems ranging from the educational sphere to the economic realm as well as to the problems of the status of Greek life on campus.

The conference was in the Committee on Educational Policy.

Beginning with the keynote speech delivered by Dean Speer concerning the administrator's concept of a "Student," and finishing with Dean Briber, and Deans Rule, Fassett, and Speer.

1. There shall be no hazing among students at MIT.
2. Control of all matters pertaining to orientation (including houses) within the individual living groups shall be the responsibility of the individual living group governments.
3. It is an instance where normal classes are unable to control activity or control is inadequate, the Executive Committee or the Dormitory Committee may request charges and/or voting for suspension of such group.

CLARIFICATION: A. "MIT in the student living process ..." shall be considered as:

A. Within the confines of Baker House and Burton House.
B. Within the house property of fraternity houses.
C. Within the East Campus fraternities, the Parallels, and the area directly between the Parallels.

Illegal activity outside the house property of the fraternity or Parallels shall be subject to immediate Executive Committee action, and may result in suspension from MIT for individual involved.

Executive Committee of the administrative committee shall be sole judge of when activity is illegal.
