WTBS Announces Program Schedule

Melpar's sun, swift growth during
the past eleven years — we have
doubled in size every 24 months —
is due, in large part, to the out-
standing performance of our en-
ergying staff. As a leading R & D organization, we are constantly called upon to
perform tasks which have never
been done before. Thanks to the
creative talent which forms the
backbone of our organization, we
have grown rapidly both in stature
and size. Members of our staff
have enjoyed similarly rewarding
growth.

Performance Determines Advance-
ment. Individual recognition
is a fundamental policy at
Melpar. Each engineer is advanced
on the basis of his performance.
The average age of our engineer-
ing staff (one of the industry's
youngest) and the rapidity of
growth of above-average staff
members, are clear indications of
what Melpar's individual recogni-
tion policy can mean to you.

Project Teams. As a Melpar staff
member you will enjoy the oppor-
tunity to participate in entire
projects, from conception to com-
pletion of prototype. Our project
staff basis of organization gives
you the satisfaction of seeing your
own efforts materialize, and helps
you acquire experience essential
to eventual managerial responsi-
ability.

Fine Living Conditions. Melpar
laboratories are located in choice
suburban areas near Washington,
D. C. and Boston, Massachusetts.
These areas were selected because of
their proximity to outstanding
educational, cultural and research
facilities. Fine housing in all price
ranges is readily available.

Facilities. Melpar offers complete
facilities for creative research and
design. Our headquarters labora-
tory near Washington, D. C.
comprises 265,000 air-condi-
tioned sq. ft., is ultra modern in
design and equipped with an eye
to both future and present needs.

A MESSAGE TO THE SENIOR

SPOTS DAY COMMENTS
Dan Holland, SAE President of the Athletic Association:
"We hope that all Sports Days will be the kind of fall MIT programs we are doing everything in our power to make this a grand day a day during which the spotters will have a concentrated chance to see the Tech teams in action."

Bob Jordan '58, SAE President: "This is certainly a step in the right direction to give an MIT Fall Day. We hope that this stride forward will give a focal point to MIT sports."

Richard L. Batch, Director of Athletics:
"The AA has come up with a wonderful idea, and it is a great deal to the purpose of both our varsity and intramural sports pro-
gram."

Arnie Amstutz '58, Undergraduate Association President:
"The AA is doing a lot of work on this program. We hope that it looks like this will be a big day for MIT."

ALL SPORTS DAY PROGRAM
Saturday, November 2
10 a.m.—Crew, MIT vs. Dartmouth on the Charles River with the finish in front of the MIT East Houses.
11:15 p.m.—Tech Football, SAE vs. Intramural All Stars on Briggs Oval.
2:30 p.m.—Varsity Soccer, MIT vs. U. S. Coast Guard on Briggs Field.
3 p.m.—Rugby, MIT vs. Dartmouth on Briggs Field.
