To the Editor of The Tech:

WTBS has and will continue to be an MIT campus station whose broadcasting is aimed towards as many men as possible and is dedicated to the cause of folk music because of external stresses. Next term, a new and exciting show will definitely continue in its present vein. However, I would like to correct the statement which said that WTBS has and will continue to be an MIT campus station whose broadcasting is aimed towards as many men as possible and is dedicated to the cause of folk music, because of external stresses.

Dr. Killian shows an interesting variety of styles in his work. When he began painting, about five years ago, he employed a flat, simple, neo-Eisenhower style. He has progressed through periods of impressionism and expressionism and also the high esteem in which we were once held in our club, by telling us where we goofed.

DECK THE HALLS

The days grow short, the nights grow long, the north wind does blow, and a light frost appears on the knees of coeds. Christmas is imminent, and once more our keen young minds turn to the vexing problem of Christmas gifts.

Let us examine first the most vexing of all gifts problems: What do you buy for the person who has everything? Well sure, you could get them a choker, a hat, or a scarf, but this is a book, and the book is what we do to if it be by the horn. Ask yourself this question: Does he have a birthmark? A Mark number? a lacrosse season? An 8-20 weed? A T-square? A Prine store?
