

Westgate To Go Next Year; New Dorm, Fraternities To Move In

West of Burton House, along the line of the Charles (and U.S. 20), to a point just south of Memorial Drive, a new dorm, which will house primarily the science and engineering students, will be built. The remainder is leased out to Harvard, Smith, and Bowdoin, and will have all the facilities of a dormitory, including conference rooms, TV rooms, and a variety of shops.

"We plan to have this dorm ready by the fall," said Mr. Baker, President of the Baker House. Mr. Baker estimated that the cost of the dorm will be around $4 million.

"The dorm will be a modern facility, with all the amenities of a modern dormitory," Mr. Baker said. "We are very pleased with the plans for the dorm, and we look forward to having it ready for next year."
