PHYSICISTS, CHEMISTS, MATHEMATICIANS and CHEMICAL AND MECHANICAL ENGINEERS
Make an appointment through your placement office

Du Pont believes that the employee builds his own job security by the way he does his work, by his contributions to the progress of the Company and by his readiness to accept responsibility.

But Du Pont meets the employee more than that. In the U. S. are represented a program of benefits designed to help him as he advances.

Your employer benefits go to work the day you join the Company. They grow and build equity for you as the years go by. Vacation, life insurance, group hospital and surgical coverage, accident and health insurance, profit and bonus plans are all part of the program.

Let’s look at a special example, the Thrift Plan. You become eligible for it after one year with the Company. For each dollar you invest in U. S. Savings Bonds, the Company contributes twenty-five cents toward the purchase of Du Pont common stock in your name. Roughly 65 per cent of the Company’s 90,000 employees are now participating in the plan.

When you’re deciding on a career, security is only one consideration. But it’s an important one to you and your family. At Du Pont, security is a bright part of the future awaiting the college graduate.

Du Pont offers you plenty of opportunities in production and marketing stages. Engineers and scientists, and chemical engineers, and still do. But today, there’s critical need for engineers in almost every other field—civil, mechanical, electrical, instrumental and industrial engineering, to name a few.

Expansion is the major reason. In 1957, for example, sales at Du Pont were nearly two billion dollars. Four new plants were being built. New research programs were being launched. New products were moving into the production and marketing stages. Engineers and scientists at all kinds work in 75 Du Pont plants and 90 laboratories in 26 states. All of this tends to broaden opportunities for the young scientist and engineer at Du Pont.

If you’re interested in finding full scope for your ability, and this includes a great many special fields, Du Pont offers you plenty of opportunity to move ahead.

SEND FOR INFORMATION BOOKLET ON JOB OPPORTUNITIES AT DU PONT
Booklets on jobs at Du Pont are yours for the asking. Subjects covered include: mechanical, civil, metallurgical, chemical, electrical, instrumentation and industrial engineers; atomic energy, technical sales, business administration, research and development. Name the subject that interests you in a letter to Du Pont, 209 West Seventh Street, Wilmington 90, Del.
